*Tim Spencer was one of the original Sons of the Pioneers, along with Roy Rogers and Bob Nolan. He wrote a number of great songs, including this one honoring our neighboring state to the south. It's a fitting song considering that much of the Texas to Kansas cattle drives was crossing Oklahoma.*

The everlasting hills of Oklahoma, they hold a million treasures to be found  
Golden grain, on hills of green, wave to valleys cool and clean  
Too bad some folks have never seen the everlasting hills of Oklahoma.

The Everlasting tales of Oklahoma, are told in clouded statues in the sky  
Pioneers, long since gone, their wagon wheels still rumble on  
When thunder peals and falls upon, the everlasting hills of Oklahoma

The everlasting fame of Oklahoma will live in names of men she claims her on  
Some were right and some were wrong, in history's pages prose and song  
All hail them now, for they all belong, to the Everlasting Hills of Oklahoma
