

Wyoming Nights, Wyoming Lights *by Jeff Davidson* © *all rights reserved*

There's not a lot to say about this song, just a pretty tune with romantic lyrics.

There was silver on the sage and gold shone in her hair
The full moon kissed the snow and magic filled the air.

The hills echoed with moonlight and stardust filled the skys
A wondrous Wyoming night sparkled from her eyes

She held a certain mystery like a long Wyoming mile
I just threw my arms around her and kissed that warm Wyoming smile

C Wyoming nights, Wyoming lights, how was I to know
H If I stole a kiss, she'd steal my heart, and never let it go
O Wyoming nights, Wyoming lights, I still can see
R The reflection in her eyes, and they were full of me.
U Wyoming nights, Wyoming lights, that was my moment
S When I opened my heart to her, as wide as all Wyomin'.

A Wyoming wonderland it seems so long ago
When I held her close to me and felt our hearts beat so

There was silver on the sage but I just couldn't see
How one Wyoming night would last a lifetime yet to be

Repeat Chorus
