“

*"We knew apps existed, but didn't know that this type of mobile solution was available and affordable for small businesses. Our hair salon can now use the loyalty programs and communicate with the customers via push messages. Eazi-Apps have always been flexible, easy to use and we always received a high level of customer service."*

## Struggling with sales? Join the mobile revolution!

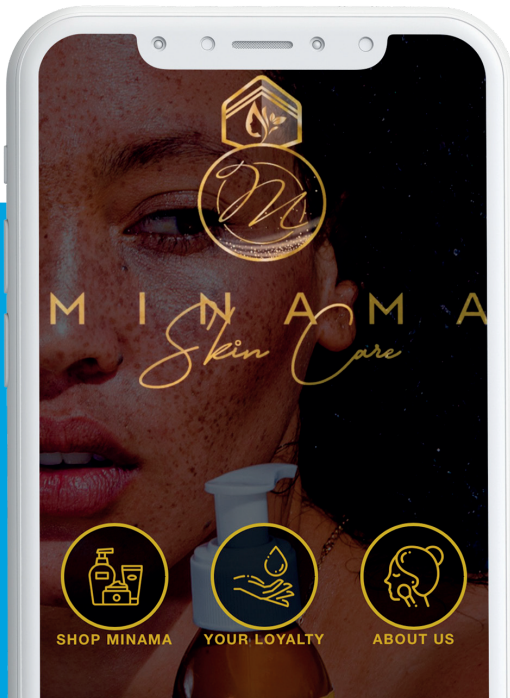

Get ahead of the competition with your own branded mobile app

## Easily connect with your customers

Eazi-Apps offer highly innovative and affordable mobile solutions to help your business:

- ✓ Fully branded mobile app designed & built by experts
- ✓ Advanced loyalty program to ensure customer retention
- ✓ Push notifications to promote your brand and products
- ✓ Mobile Commerce to increase sales and reduce costs

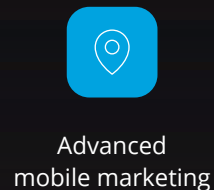

## Drive business growth and attract customers

It has now become essential for a business of any size to implement an app into their mobile strategy. In an extremely competitive world many customers are using apps to stay in touch with the brands they love the most.

### We can develop a revenue generating mobile app for your business

Advanced mobile marketing

Sales and commerce

Internal business processes

Customer communications

## Engage customers with push notifications

Push notifications can provide a local business the opportunity to stay top of mind with personalised messages. Information can be provided in real time and they statistically have higher open rates than email.

Generate additional sales during quiet times

Promote offers, events or even new product releases

Send out unlimited messages and generate serious revenue
