

GENERAL PRICE LIST

This list is effective January 1, 2024. However, prices for service and merchandise change, and if this list is being used in planning future services, please take this into consideration.

We offer a complete and full range of services and merchandise to meet individual wishes and desires. Any family may select exactly what they want. Our prices are itemized on the following pages.

The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. However, any funeral arrangements you select will include a charge for our basic services and overhead. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

Consumers Guide to Selecting Funeral Services

In planning a funeral, it is important to remember the funeral is a purposeful, organized, time-limited response to death. Its purpose is to help all survivors accept and adjust to the death. Great care and consideration should be given to such a significant and far reaching event. Because of our years of experience and the complete training of our entire staff, we at Burton believe we are well qualified to discuss these considerations and carry out individual wishes and desires. We realize that any death affects many people. We can help you plan in such a way that most everyone affected will feel their needs are being met.

PROFESSIONAL SERVICES

BASIC SERVICES OF FUNERAL DIRECTOR AND STAFF

\$2,595

This charge includes the services of our professional staff, and a portion of our overhead. It includes anything we can do to be helpful to family and friends such as, availability on a 24-hour basis, consultation with family and friends, assistance of staff in all necessary phases of arrangements, obtaining, preparation and filing of necessary notices, authorizations and consents, certificates and permits; coordinating with those providing other portions of the funeral, e.g., cemetery, crematory and others, and availability to family following funeral and final disposition. Included in this charge are overhead expenses relative to our facility such as insurance, maintenance and utility expenses, secretarial and administrative costs, and equipment and inventory expenses. This fee for our basic services will be added to the total cost of the funeral arrangements you select. (This fee is already included in our charges for direct cremations, immediate burials, and forwarding or receiving remains.)

SANITARY CARE (other preparation of the body)

Washing, disinfecting and care of body

\$410

EMBALMING

\$850

Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement, such as direct cremation or immediate burial that does not require you to pay for it.

The purpose of embalming is to temporarily preserve, sanitize and disinfect the body to afford those who care about the one who has died time to gather, pay their respects and have the type of service to satisfy all concerned. "Embalming is also effective in killing and reducing microorganisms and thereby protecting public health." (Quotation from Erie County coroner).
