

Central West Seasonal Produce

Autumn

Autumn in the Central West settles in like a golden hush—orchards brimming with peak apples and pears, vines heavy with dusky grapes and sun-soft figs.

Late plums linger as the last taste of summer, while pumpkins, sweet potatoes, eggplant, carrots, beetroot and leafy greens colour the fields. A season of gentle abundance, it's when the Central West feels most magical.

- Orange - **Huntley Berry Farm** (Nov-March) - Berries, Stonefruit + Veggies

PYO TIPS

- **Check ahead:** Pick Your Own (PYO) availability can vary based on weather and how the season progresses. It is highly recommended to check an orchard's website or social media page for updates before you visit.
- **Bookings are often required:** Some orchards require advance bookings, especially for weekend visits. Check their booking information to avoid disappointment.
- **What to bring:** It is advisable to bring your own bags or buckets for picking, and wear comfortable covered shoes, hats and sunscreen.
