Features of the Skin

What do I See?

[Tendency to] Rosacea

Rosacea are broken capillaries, tiny red veins, often on the cheeks and sometimes on the nose.

At tendency to Rosacea can see that the cheeks are often red, after a glass of wine, intensive exercise in temperature, etc.

If the skin is out of balance, the capillaries do not want open-close. Open-close, they jump, as it were broken and have a rosacea damage.

Mainly by external influences! (Weather / Wind / Cold).

Pores Structure

Or the holes in the skin. From the pores is tallow.

So with a visible pore structure on the entire face have to deal with the oily skin or firm.

In a fine pore structure we speak of a fine or dry skin (=fat and dehydrated).

You can the pores mainly on the T-Zone, then you have to deal with a combination skin.

Glowing Skin

This skin can be fat / firm, but sometimes one is too greasy cream used on which Remains there.

Either the skin is dehydrated or the skin is fat creation to compensate for the moisture deficit. The skin is then often red & thin

Red Skin

Not always you need to be associated with Rosacea which indicates lack of moisture in the skin

Barley Grains

White bumps,
often around your
eyes.

Moisture deficit!

To remedy with Eye Cream
and/or Moisturising system.

This makes no
sense to have
them removed &
do nothing with it.

It will come back again soon

Flakes

Too much tallow
in the skin
(**Dry Skin**)

Impurities, Pimples & Pores

The contaminated blackheads on the nose are often contaminated pores & blackheads.

This can be solved by means of daily cleaning & regular exfoliation.

Blackheads are really like a bump on the skin.

Blackheads
Causes & Treatments

Pigmentation & Sproeten

Crackle is dry lines. Press the tip of the nose slightly up, and then you can see it well. Also occurs on the forehead and around the eyes.

Crackle indicates lack of moisture in the skin.

Acne

Inflammation of the sebaceous glands

Age

From 35-40 years old goes the skin produce less tallow.

Products can something fuller / richer
