My Dear Parishioners,

We convince ourselves that life will be better after we finish school, find a good job, get married, or have children. Then we are impatient because the youngsters need so much time and attention, or you are frustrated dealing with teenagers. Better days must be just around the corner.

We tell ourselves that our real life will start when our spouse gets the big promotion; when we can find that better job, take a vacation, or retire. Yet life will always be filled with challenges and hard times. It's best to admit this and decide to live in the here and now!

Someone once said, "For a long time it seemed to me that life was about to begin--real life. But there was always some obstacle in the way, something to be gotten through first, some unfinished business, some still to be served, a debt to be paid. Then life would begin. At last it dawned on me that these obstacles were my life."

So treasure every moment that you have, beginning today. Stop waiting until you finish school, until you go back to school, until you lose ten pounds, until you gain ten pounds, until you have kids, until your kids leave the house, until you start work, until you retire, until you get married, until Friday night, until Sunday morning, until you get a new car or home, until your car or home is paid off, until spring, until summer, until fall, until winter, until you are off welfare, until the first or fifteenth, until your ship comes in, until you've had a drink, until you've sobered up, until you die. It is better to decide that there is no better time than right now. Living is something you do now or never.

Here's a start—begin living stewardship of and in your life now: If today were your last day on earth, what is the one thing you would need to do to die in peace? Make that happen. Keep smiling.
