MANAGER'S MINUTE

Father's Day is coming up, and around here at Larry's Automotive, it always brings back some great memories. For many of us, our love of cars started with our dads—holding the flashlight while they worked under the hood, going on weekend drives, or just listening to their stories while riding shotgun.

At Larry's Automotive, Father's Day holds a special place in our hearts—not just because we get to honor the great dads we serve every day, but also because we're lucky to work alongside some incredible fathers ourselves.

We want to give a special shout-out to the dads on our team: Larry, Brian, Nick, Doug, Rick, Eric, Mike, Dallas & Dylan.

These guys don't just turn wrenches—they show up every day with the same values they bring home to their families: hard work, patience, and the drive to help others.

Whether you're celebrating your own dad, remembering someone special, or getting a few well-earned thanks yourself, we hope Father's Day brings you time to reflect, relax, and enjoy the people you care about most. Thanks for being part of our extended family here at Larry's Automotive. We're honored to serve you, and we wish you a Happy Father's Day and a great start to your summer.

Thanks for the Kind Words!

"I went in for an alignment, and they told me about the steering gearbox having play in it, which I knew. The following day I realized that the tie rod ends were bad, so I replaced them along with the gearbox and the idler arm. Then I went back in and explained to them what had happened and they've done another alignment at no charge. They're really nice and I believe them to be honest people. I recommend them." - Bobby T.

"Before I've even taken my vehicle to be worked on, I wanted to leave a review on how professional the staff is. Nick has been super helpful answering all my questions. I tried communicating with another auto shop in Evansville and they were super rude when I had questions." - Jason C.

"I've taken several of my vehicles to Larry's and each time I've been very happy with the service. Friendly staff who takes the time to explain the issues and make the repairs in a timely fashion." - Joyce D.

"Many people have recommended Larry's to me. I decided to give them a try when my service engine light came on, and I am very pleased with the service I received. Very friendly customer service, and they were very prompt at finding and fixing the issue." - Desiree S.

Shortcut BBQ Ribs

This is the easiest, quickest way to grill ribs!

Total Time: 0:45, Prep: 0:05, Cook: 0:45
Level: Easy • Yield: 8 Servings

INGREDIENTS

• 1 Rack Baby Back Ribs (about 3 lbs.)

• Freshly Ground Black Pepper

• 2 tsp. Smoked Paprika

• 4 Garlic Cloves, minced

• 1 cup Barbecue Sauce

• 3 tbsp. Brown Sugar

• Kosher Salt

DIRECTIONS

1. Preheat grill over medium-high heat. Cut ribs into 3 sections.

2. Add to a large pot filled with enough water to cover ribs. Add about 1 tablespoon salt, bring to a boil and simmer for 20 minutes. Drain ribs and place on sheet pan. Dry well with paper towels.

3. Meanwhile make spice rub. Combine garlic, brown sugar, paprika, 1 teaspoon salt, and 1/2 teaspoon black pepper in a small bowl. Spoon the mixture onto the ribs and rub all over with hands.

4. Place ribs on grill or grill pan and cook for 10 minutes, turning halfway through. Brush barbecue sauce on ribs and cook for 1 minute more until lightly charred. Serve ribs with barbecue sauce.

WELCOME SUMMER

Summer Solstice in the Northern Hemisphere will be at 10:41 PM EDT on Friday, June 20. The solstice marks the onset of summer, as well as the longest day of the year.

Puzzle Solution

THE SIMPLE GUIDE TO FLUID FLUSHES

One of the best ways to keep your car in good condition is to check on the fluids between major tune-ups. It's an inexpensive way to prevent engine damage. Regularly replenishing and flushing the fluids in your vehicle transforms the overall performance of your car. To help you out, here are some of the fluids that need to be flushed and refilled on a regular basis in your car.

- ENGINE COOLANT** - Engine coolant is responsible for regulating the engine's internal heat. You should check on the coolant of your car every season, especially during the winter and summer months. It is recommended that you replace your engine coolant every 3 to 5 years.
- ENGINE OIL** - Engine oil is easily the most common and important fluid on the list because it lubricates the engine internals. It's a good idea to get in the habit of changing your engine oil every 6 months or around 5,000 miles. You should also check the oil level of your vehicle every month.
- BRAKE FLUID** - Brake fluid is responsible for ensuring that the brakes of your vehicle are working perfectly. If there is something wrong with your brakes, your brake fluid is the first thing that is going to be checked. It's recommended to get your brake fluid changed every 2 years.
- TRANSMISSION FLUID** - Transmission fluid ensures that all the gears of your car are shifting smoothly. Consistent fluid levels and fluid quality are extremely important to the health of your transmission. It's recommended to change the transmission fluid every 50,000 to 100,000 miles.
- POWER STEERING FLUID** - Power steering fluid helps provide a smooth and easy steering experience when you're driving your car. The fluid doesn't usually get low, but if you do notice a substantial drop in fluid, then you're going to start experiencing a very stiff, hard-to-turn steering wheel.

Your car needs clean fluids to function at optimum levels. If that doesn't happen, your steering, cooling system, or transmission won't work properly. Regular fluid flushes for your car will ensure that your car runs without performance issues.

Big Thanks from Larry's Automotive!

We're thrilled to announce that Larry's Automotive donated \$8,284 to St. Jude Children's Research Hospital through our recent Brakes for Kids event! Thanks to our amazing customers, who received FREE brake pads or shoes, we were able to give 100% of the proceeds to this incredible foundation dedicated to helping children and families in need. Even more exciting—over the past two years, we've raised more than \$15,000 for St. Jude through this promotion! Your support helps make a real difference. Together, we're driving change—one brake job at a time.
