Compassionate Care. Continued.

We are committed to guiding both the family and the individual struggling with addiction on the path of recovery. Our philosophy is that treatment doesn't end on discharge. We practice **continued care** at Sanctuary. Through establishing **networks** and our growing **alumni program**, we are able to continue with our clients throughout their recovery journey.

The Future is Bright

Our customized treatment plans often include a relapse prevention path, job search, resume building, and structured sober living or family reunification. A key component to this process is frequently a sober environment, conducive to recovery.

Our beautiful homes are located in prime neighborhoods throughout Metro Phoenix.
