AIRGO FUSION

SIDE-FOLDING ROLLATOR AND TRANSPORT CHAIR

Stay independent. Get a lift home when you need it.

The AIRGO FUSION is a lightweight, side-folding rollator that converts into a transport chair. Walk with confidence, and if you go further than planned, flip the backrest, swing the footrests forward and a loved one can push you home in comfort. At just 7.76 kg, it carries users up to 136 kg in both modes.

TWO IN ONE

Rollator and transport chair in one design. Flip the backrest and swing the footrests forward to switch modes.

SIDE-FOLDS WITH ONE PULL

Pull the strap on the seat and it folds sideways. The frame locks together when folded for safer lifting and storage.

SWING N' LOCK FOOTRESTS

Footrests lock forward for the chair, swing to the side for walking, and clip to the frame when folded.

COMFORTABLE IN BOTH MODES

Padded seat, full backrest and dual armrests that give you somewhere to rest your arms in either mode.

EASY TO PUSH AND BRAKE

Smooth bearings, an improved centre of gravity, ergonomic handgrips and a tool-free brake adjustment knob.

INDOOR AND OUTDOOR

8" (20 cm) Comfort-Grip wheels, plus a reflective soft basket that removes for machine washing.
