

The New Standard in Homecare

Designed for Safety, Engineered for Comfort

Universal Fit for Adjustable Beds

- Universal fitment – designed to fit and contour with adjustable bed frame
- 15 and 20cm standard thickness options with consistent comfort

Breathable & Comfortable for Homecare

- Integrated airflow channels for temperature and moisture control
- Medical-grade support with a home-like feel

Easier Repositioning & Increased Independence

- High support design to assist repositioning
- Soft, Medium or Firm options to support different comfort requirements

Safe & Supportive Transfers

- Firm, stabilising sides for safer transfers
- Radius edge for increased comfort and stability

Icon Mattress Features

Airflow & Temperature Regulation

- Open-cell Airoform layer for superior breathability.
- Side-to-side profiling promotes consistent ventilation.

Safety & Falls Prevention

- High-density strengthened sides to assist transfers.
- Reduces risk during transfers and repositioning.

Superior Repositioning Support

- Designed for users with reduced mobility.
- Triple Zone Pressure Care distributes pressure and stability where it's most needed.

Outstanding Comfort & Pressure Care

- Dual-layer Airoform foam for superior pressure care.
- Available in multiple comfort options for individual needs.

Foundational Support Foam

- Premium-grade firm foam enhances safety during transfers.
- Maintains support and comfort in varying user positions.

Advanced Medical Foam Technology

- 4-layer progressive support structure.
- Engineered for durability and long-term performance.

Adaptive Contouring for Adjustable Beds

- Unique profile hinge system for bed articulation.
- Channel profiling ensures a responsive and supportive feel.

Hygiene & Longevity

- Antimicrobial materials for enhanced infection control.
- High performance hospital-grade foams designed for long-term performance in a high-care environment.

Cover Options

The Icon range is available with a selection of high-performance covers designed for different care environments. Covers can also be purchased separately, allowing any mattress to be updated later to meet changing needs.

Luxury Quilted Homecare

- 4-way stretch, anti-shear fabric
- High breathability, assists cooling
- Homely quilted finish with medical-grade performance
- Supports effective pressure care
- Removable and replaceable
- Hard-wearing base built for adjustable bed movement

Advantiflex Classic

- 4-way stretch, anti-shear surface
- Waterproof, wipe-clean finish
- High-frequency sealed and welded seams
- Durable PVC base for added protection
- Compatible with disinfectants up to 1,000ppm

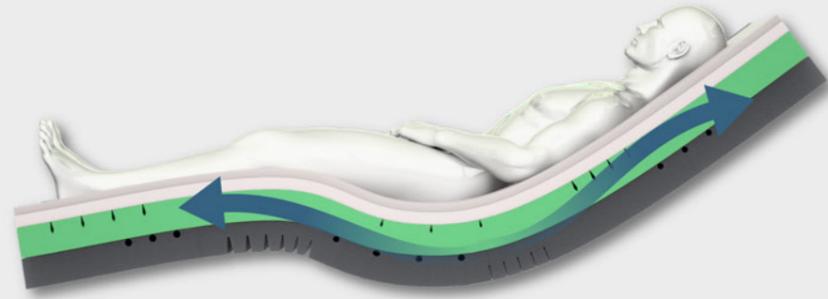

Premiflex Ultra

- 4-way stretch, anti-shear fabric for skin protection
- Waterproof, breathable surface, easy to wipe clean
- Engineered for demanding clinical environments
- Supports foam performance and hygiene management
- Compatible with disinfectants up to 10,000ppm

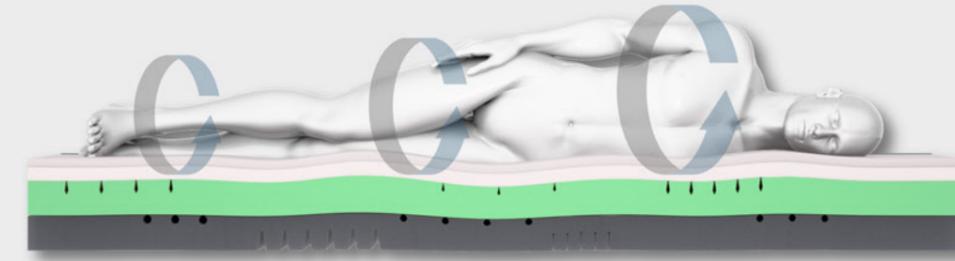

Safety, Function & Pressure Care

Breathability & Microclimate Control

- Side-to-side channels improve airflow and temperature regulation
- Open-cell foam layer increases ventilation
- Cover design supports microclimate management
- Responsive top balances comfort and pressure care

Ease of Repositioning

- High-grade comfort layers promote easier movement
- Airoform upper balances spring and immersion
- Reduced memory foam prevents sinking
- Triple Zone design supports natural pressure points

Safer Transfers & Stability

- Radius edge design promotes stability and confidence
- High-density sidewalls improve edge support
- Firm perimeter reduces risk of falls
- Enhanced stability supports safer transfers

Universal & Adaptive Fit

- Full hinge points maximise adjustable bed movement
- Knee and sacral profiling improve flexibility
- Compatible with all comfort options and thicknesses
- Comfort without compromising safety or durability

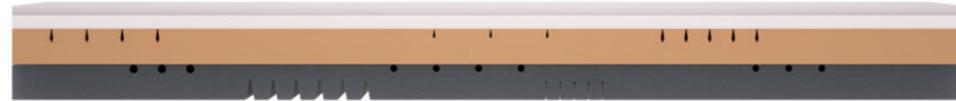

Comfort Options

The Icon mattress is available in Soft, Medium, and Firm comfort options, recognising that comfort is deeply personal and essential to effective clinical care. These options allow clinicians and caregivers to select a configuration that aligns with each client's unique needs, without compromising on the mattress's proven pressure care performance or core design principles.

ICON Soft

Ideal for clients who require gentle immersion and greater envelopment, helping reduce pressure peaks and enhance comfort for those with sensitivity or frailty.

ICON Medium

A balanced option that suits a broad range of clients, offering both responsive support and comfortable contouring.

ICON Firm

Designed for clients who need added stability or prefer a more supportive surface, promoting easier repositioning and transfer support.

Height Options

The Icon mattress is offered in two height profiles—15cm and 20cm—to provide flexibility in both clinical functionality and user preference. Each option has been designed to support specific care needs while maintaining the Icon's high standards in pressure care and durability.

15cm Height

- Low-profile design helps reduce the risk of injury from bed-related falls
- Ideal for high-acuity settings and fall prevention protocols
- Seamless integration with profiling and adjustable beds
- Ensures correct alignment at key bed break points, such as the knee and hip
- Enables easier transfers for both clients and carers

20cm Height

- Provides a more traditional mattress appearance and user experience
- Enhanced immersion and envelopment for improved pressure redistribution
- Supports higher weight capacities, making it suitable for bariatric care
- Increases long-term durability, ideal for high-use environments
- A versatile option for residential aged care and long-stay clinical settings
