

ACTIVETM PRESSURE CARE OVERLAY

Added pressure relief and comfort for a better recovery.

The Icare ActiveXTM Pressure Care Overlay is designed to provide added pressure relief and comfort on an existing mattress.

This overlay is heat and pressure sensitive causing them to **soften around pressure points and inflamed areas.**

ActiveXTM is a high grade of elastic type foam that is responsive to a temperature around inflamed areas. ActiveXTM will become softer as it becomes warmer. So around a pressure point, it will always soften and allow the blood to circulate freely.

IDEAL FOR

Use to increase comfort on mattresses especially for short-term illness, recovery from surgery or for added comfort.

Safe to use on alternating air mattresses. ActiveXTM Overlays are often used to increase comfort and reduce heat loss when used with alternating air mattresses.

Suitable for use with alternating air mattresses and standard mattresses.

Vented Vant Side Fabric for breathability. ZeroTec Covers optional.

PRESSURE CARE

Risk Category **High**

This rating is based on our average peak pressure of <18mmHg. For some high risk clients Icare Zerotec covers are recommended.

Icare risk category ratings are based on average peak pressure, Therapist recommendation, case studies, industry comparison and the Waterlow scale. For more information refer to the Icare pressure care manual.

5 YEAR WARRANTY

Quality you can trust for peace of mind.
