

Sovereign S7

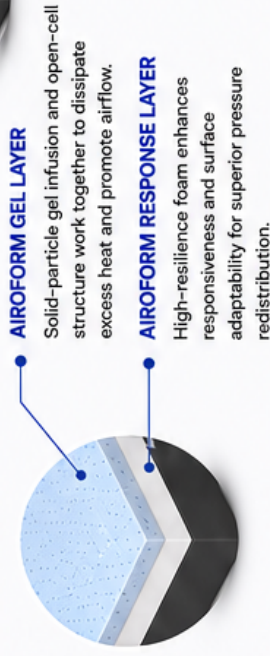

Advanced Overlay

Designed for advanced care. Engineered for comfort, built for outcomes.

The Sovereign S7 Overlay is engineered with two advanced layers—Airoform Gel and Airoform Response—to optimise microclimatic conditions at the skin interface, keeping patients cool, dry, and comfortable.

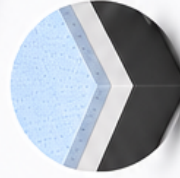

Designed for skin integrity and pressure relief, it maximises surface contact to reduce interface pressure and offers excellent heat stability with sustained immersion.

Two Advanced Layers. One Superior Solution.

REINFORCED EDGE

High-density perimeter foam reinforces the sides of the overlay to improve stability, assist safe transfers and reduce roll-off risk.

CONFORMING COMFORT & SUPPORT

ENHANCED AIRFLOW & TEMPERATURE CONTROL

SUPERIOR PRESSURE REDISTRIBUTION

COOLING GEL TECHNOLOGY

AVAILABLE COVERS

ADVANTIFLEX COVER

- ✓ High performance stretch cover
- ✓ Fluid resistant
- ✓ Vapour permeable
- ✓ Antimicrobial
- ✓ Easy to clean
- ✓ Durable & long lasting

LUXURY QUILTED COVER

- ✓ Soft, quilted comfort
- ✓ Breathable
- ✓ Antimicrobial
- ✓ Easy to remove & clean

IDEAL FOR

PRESSURE CARE

ADJUSTABLE BEDS

TEMPERATURE REGULATION

AGED CARE & HOME CARE

MOBILITY SUPPORT

Pressure Relief

Reduces interface pressure and protects skin integrity

Postural Support

Conforms and adapts to support repositioning and mobility

Advanced Microclimate

Keeps patients cool, dry, and comfortable

Lasting Comfort

Engineered materials for superior comfort and outcomes

Responsive

High elasticity supports mobility and repositioning efforts

Comfortable

Conforms to the body to reduce interface pressure and enhance wellbeing

Dry

Open-cell structure promotes airflow and moisture management

Cool

Dissipates heat and regulates temperature

AIROFORM GEL

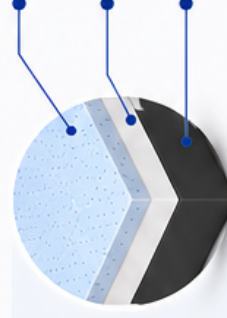

Cool, conforming gel-infused memory foam for pressure relief and temperature stability

AIROFORM RESPONSE

High-resilience foam base for pressure redistribution and support

REINFORCED EDGE

High-density perimeter foam for improved edge support and patient safety

Available in Ultra Soft, Airoform Gel provides excellent comfort while supporting repositioning and mobility.

Suitable as a pressure care overlay or as part of a mattress interface layer, it delivers outstanding pressure redistribution and patient support.
