

XP SUPPORT OVERLAY / UNDERLAY

SOLID SUPPORT. VERSATILE PERFORMANCE.

The Icare XP Support Overlay/Underlay is designed to deliver firm, stable support and enduring comfort across a wide range of care settings.

HEAT & PRESSURE SENSITIVE

This overlay is heat and pressure sensitive causing them to soften around pressure points and inflamed areas. XP Support is a high grade elastic foam that is responsive to body temperature around inflamed areas. XP Support will become softer as pressure point, it will always soften and allow the blood to circulate freely.

PRESSURE CARE

Risk Category Low

This rating is based on our average peak pressure of <18mmHg. For some high risk clients Icare Zerotec covers are recommended.

Icare risk category ratings are based on average peak pressure, Therapist recommendation, case studies, industry comparison and the Waterlow scale. For more information refer to the Icare pressure care manual.
