# Why Husqvarna?

The Husqvarna difference comes from our unwavering commitment to our core principles in everything we do, from product design through execution.

**Power.** Experience power without compromising performance, for products that are truly built to last.

**Comfort.** Our balanced, ergonomic designs keep you comfortable, no matter how long the job takes.

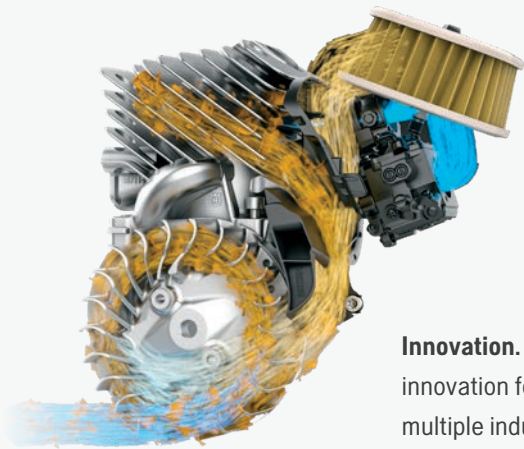

**Quality.** Our rugged and reliable products have been tested to perform season after season.

**Ease.** Designed with you in mind, our products easy to start, use and maintain.

**Versatility.** We offer a wide variety of tools and equipment – from leaves to lawns and everything in between.

**Innovation.** We've been committed to innovation for over 300 years, creating multiple industry-first technologies.

# The gold standard in chainsaws.

Every Husqvarna chainsaw is built with just one goal in mind: maximize your productivity without sacrificing maneuverability. It's our winning combination that's given us our legendary reputation.

**X-CUT®**

## It's all about the output.

X-CUT® is the first chain ever to be developed, designed and manufactured by Husqvarna, side-by-side with our chainsaws in our manufacturing facilities in Sweden.

## GAS CHAINSAW 100 Series

- **Powerful and efficient X-TORQ® engine.** Reduces emissions by up to 60% and increases fuel efficiency by up to 20%.
- **LowVib® technology.** Significantly reduces vibrations so you can work more comfortably.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Air Injection™ technology.** Expels larger dust and debris particles before they reach the air filter for improved engine life.

## GAS CHAINSAW 400 Series

### Best-In-Class Starting Performance\*

- **Powerful and efficient X-TORQ® engine.** Reduces emissions by up to 60% and increases fuel efficiency by up to 20%.
- **Featuring X-CUT® chain** for exceptional sharpness and durability.
- **LowVib® technology.** Significantly reduces vibrations so you can work more comfortably.
- **Smart Start® technology.** Easy, fast starting with minimum effort.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Air Injection™ technology.** Expels larger dust and debris particles before they reach the air filter for improved engine life.

\*Based on the series of Husqvarna features that support the starting performance when compared to competitive chainsaw models in the 35cc to 50cc range.

## GAS CHAINSAW Rancher® Series

### Powerful and Tough

Robust gas chainsaw that deliver superior performance

- **Powerful and efficient X-TORQ® engine.** Reduces emissions by up to 60% and increases fuel efficiency by up to 20%.
- **Featuring X-CUT® chain** for exceptional sharpness and durability.
- **LowVib® technology.** Significantly reduces vibrations so you can work more comfortably.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Air Injection™ technology.** Expels larger dust and debris particles before they reach the air filter for improved engine life.
- **Three-piece crankshaft.** Forged three-piece crankshaft delivers maximum durability for even the toughest of jobs.

# Power that will blow you away.

No matter how big or small, our leaf blowers blaze through any job.

## HANDHELD BLOWER USAGE

- ✓ Tidying
- ✓ Quick cleanup

## BACKPACK BLOWER USAGE

- ✓ Seasonal clearing
- ✓ Time-consuming tasks

## HANDHELD GAS BLOWER 125B

- **Powerful, lightweight design.**<sup>1</sup> 470 CFM for maximum blowing performance at only 9.4 lbs.
- **Ergonomic balanced design.** For less strain on your arms, shoulders and back.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Adjustable tube length.** Easily adjust the blowing tube length for maximum performance.
- **Multi-speed control.** Variable speed throttle with cruise control option for easier handling.

Part No. 952711925

## HANDHELD GAS BLOWER 125BVx

- **Vacuum kit included.** Turn the blower into a mulching lawn vacuum to easily break down and collect debris.
- **Ergonomic balanced design.** For less strain on your arms, shoulders and back.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Adjustable tube length.** Easily adjust the blowing.
- **Simple starting.** Stop switch automatically resets to ON so blower is ready for next use.
- **Multi-speed control.** Variable speed throttle with cruise control option for easier handling.

### Best-in-Class CFM<sup>2</sup>

470 CFM for maximum blowing performance

Part No. 952711902

## GAS BACKPACK BLOWER 150BT

Part No. 970466901

### Husqvarna's Best-Selling Backpack Blower<sup>3</sup>

- **Superior blowing force.** 765 CFM / 270 MPH easily move heavy, wet leaves and debris.
- **Powerful engine.** 51cc engine delivers impressive clearing performance.
- **Ergonomic harness system.** Padded harness, hip belt and weight-leveling load management system provide all-day comfort.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Multi-speed control.** Variable speed throttle with cruise control option for easier handling.

## GAS BACKPACK BLOWER 350BT

Part No. 965877502

- **Powerful blowing force.** 692 CFM / 180 MPH easily move leaves and grass and hedge clippings.
- **Powerful and efficient X-TORQ® engine.** Reduces emissions by up to 60% and increases fuel efficiency by up to 20%.
- **LowVib® technology.** Significantly reduces vibrations so you can work more comfortably.
- **Ergonomic harness system.** Padded harness, hip belt and weight-leveling load management system provide all-day comfort.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Adjustable, offset handle.** Prevents your arm from being pulled downwards for increased comfort and control.
- **Multi-speed control.** Variable speed throttle with cruise control option for easier handling.

## GAS BACKPACK BLOWER 360BT

Part No. 967144301

- **Superior blowing force.** 890 CFM / 232 MPH easily move leaves, debris, litter and grass and hedge clippings.
- **Powerful and efficient X-TORQ® engine.** Reduces emissions by up to 60% and increases fuel efficiency by up to 20%.
- **Load-reducing harness.** Ventilated and load-reducing harness with wide shoulder straps provides all-day comfort.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Adjustable, offset handle.** Prevents your arm from being pulled downwards for increased comfort and control.

Available in the US only

# Get the perfect finishing touch.

Our wide range of trimmers deliver increased power without extra weight.

## CURVED SHAFT TRIMMER 122C

Part No. 966712701

- **Ergonomic design.** Comfortable curved handle and shaft for easier use and increased maneuverability.
- **Low-noise engine.** Specially-designed engine reduces extra noise.
- **Simple starting.** Stop switch automatically resets to ON so trimmer is ready for next use.

## STRAIGHT SHAFT TRIMMER 122L

Part No. 970796102

- **Lightweight design.** For more comfortable use.
- **Straight shaft.** Take advantage of extended reach.
- **Smart Start® technology.** Specially-designed engine and starter for easy and fast starting with minimum effort.
- **Quick start with air purge.** Removes air from carburetor and fuel system.
- **Easy to control.** Simple to use and maneuver through yard.

CURVED SHAFT TRIMMER  
130C

Part No. 970514305

- **Intuitive controls.** Digital ignition for simple, reliable use no matter the weather.
- **LowVib® technology.** Significantly reduces vibrations so you can work more comfortably.
- **Ergonomic design.** Comfortable curved handle and shaft for easier use and increased maneuverability.
- **Simple starting.** Stop switch automatically resets to ON so trimmer is ready for next use.

STRAIGHT SHAFT TRIMMER  
130L

Part No. 970514405

- **Intuitive controls.** Digital ignition for simple, reliable use no matter the weather.
- **Smart Start® technology.** Specially-designed engine and starter for easy and fast starting with minimum effort.
- **Easy, quick line reload.** High-capacity RapidReplace™ trimmer head reloads in three simple steps.
- **Optimal cutting performance.** Trimmer head designed for high torque to deliver optimal cutting performance when parallel to the ground.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Ergonomic design.** Comfortable curved handle for easier use and less fatigue.
- **Simple starting.** Stop switch automatically resets to ON so trimmer is ready for next use.

Curved Shaft Trimmers

Ergonomic design and handle are more comfortable to use – perfect for trimming around obstacles.

Straight Shaft Trimmers

Provide higher output and extended reach – power through thick or tough grass in hard-to-reach areas.

<sup>1</sup> When compared to the pull force required on our previous 329L model versus this model with slow pull enhancements.  
<sup>2</sup> Based on total surface area cut using a 20" diameter string with shield vs. total surface area cut with competitors' 17" diameter trimmer string with shield.  
<sup>3</sup> More fuel capacity than trimmers in its class. Class defined as consumer petrol trimmers with engine displacement in the 20cc to 28cc range  
<sup>4</sup> While being used by a 6' tall person, the distance from the ground to the tip of the bar is up to 12'8".  
<sup>5</sup> When compared to the leading competitor's 56V, 2.5 Amp Hour string trimmer with 15" cutting path.

# Take your trimming to new heights.

Our user-friendly hedge trimmers let you handle any hedges with ease. From intuitive controls to balanced designs to low noise engines, we've thought through every detail to bring you the optimal trimming experience – no matter what you're cutting.

## GAS HEDGE TRIMMER 122HD60

- **LowVib® technology.** Significantly reduces vibrations so you can work more comfortably.
- **Smart Start® technology.** Specially-designed engine and starter for easy and fast starting with minimum effort.
- **Quick start with air purge.** Removes air from carburetor and fuel system for easy starting.
- **Adjustable rear handle.** Multiple handle positions makes hedge cutting easy and comfortable.
- **Long cutter bar.** Extend your reach for more comfortable use
- **Simple starting.** Stop switch automatically resets to ON so trimmer is ready for next use.
- **Low noise engine.** Specially-designed engine reduces extra noise.

## GAS HEDGE TRIMMER 322HD60

- **Hardened steel blades.** Optimized edge angle stays sharper longer, increases efficiency and ensures durability.
- **Smart Start® technology.** Specially-designed engine and starter for easy and fast starting with minimum effort.
- **Adjustable rear handle.** Multiple handle positions makes hedge cutting easy and comfortable.
- **Durable, tested materials.** Internal gears have been specially designed for long life and tested under tough conditions.
- **Simple starting.** Stop switch automatically resets to ON so trimmer is ready for next use.
- **Intuitive controls.** Easy to use and maneuver.
- **Low noise engine.** Specially-designed engine reduces extra noise.

# Making quick work of heavy jobs.

Our powerful brushcutter easily clears high grass and brushwood. And it's easy to use and maneuver, with the included adjustable harness for additional support and comfort.

## GAS BRUSHCUTTER 122RJ

- **Multi-purpose tool.** Includes string trimmer head and grass blade.
- **Smart Start® technology.** Specially-designed engine and starter for easy and fast starting with minimum effort.
- **Quick start with air purge.** Removes air from carburetor and fuel system.
- **Barrier bar with J-handle.** Encourages safe working position.
- **Includes adjustable harness.** Creates more comfortable working position

## FUNCTIONAL CHAINSAW PANTS

Durable material to stand the test of time. Water repellant on front and lower back. Cordura® reinforcement on lower front and back for extra wear resistance. High tenacity nylon on the upper outer shell. 2-way breathable stretch material. Lightweight for all-day comfort. Leg and pocket ventilation. Reflective logos and highlights for visibility. Gear pocket for additional versatility. 6 layers of protection meets CAN/BNQ 1923-450-M91. 5 layers of protection meets WCB PPE 1-1997 TSS 4000 fpm.

## CLASSIC CHAINSAW PANTS

Durable material to hold up in various conditions. Light weight design for all day comfort. Reflective Husqvarna logo for high visibility. Reinforced knees. Ventilation on back of legs for breathability. Phone pocket. True fit sizing. Certified chainsaw protective pant – these pants are tested in Accordance with ASTM F1897 (US) for leg protection for chainsaw users. 6 layers of protection meets CAN/BNQ 1923-450-M91. 5 layers of protection meets WCB PPE 1-1997 TSS 4000 fpm.

## CLEAR CUT

Premium protective sunglasses with an adjustable rubber nose piece for added comfort. Dual mold rubber temple grips for better stability. Husqvarna grey frame color with orange temple grips. Silver mirror lens color.

## CLASSIC

Featuring a dielectric design with extended curved lens protection. Dual mold rubber temples and adjustable rubber nose piece. Black frame color with indoor/outdoor lens color.

## FLEX POLARIZED

Premium protective sunglasses with vented rubber nose piece for breathability and dual-mold rubber temple grips for better stability. Polarized lenses eliminate reflective glare for reduced eyestrain and enhanced view. Crystal black frame color and smoke lens color.

## HEARING PROTECTION WITH HEADBAND

Hearing protection where you can adjust the pressure by 20%. With soft, airy padding in the headband. The hearing protectors are developed for optimal ergonomics.

## ASSORTMENT OF GLOVES

We offer a full range of gloves designed to provide everything you need when it comes to protection and functionality. From work gloves to chainsaw protection gloves and winter gloves, you'll be equipped to get the job done safely.
