

Superior Painting & Waterproofing... with a Passion! *By Gabby Gregory*

Not all painters and waterproofers are made the same. Just like anything else, you get what you pay for, and if you're paying a very low price, then chances are you'll get a very low-quality result not only visually, but also functionally. Indeed, in our harsh Florida climate, some things just don't last as long, fighting against powerful sunlight, intense heat, and corrosive salt water/air. So, when a cheap product is applied by an inexperienced and ill-informed person, it's not likely to live up to your expectations.

For superior interior and exterior painting and waterproofing that will both look amazing and last for years, even in our extreme Florida weather, you need to call Pioneer Protective Coatings, LLC.

Locally-owned and operated by Paul Czaplicki, who is a native of Martin County, Pioneer Protective Coatings, LLC has provided 5-star quality painting and waterproofing services since 2005. Paul himself has been a professional painter since he was 17 years old, and has successfully completed all types of residential and commercial projects, from boat docks to baseball stadiums. Under Paul's leadership, Pioneer Protective Coatings has maintained an A+ accreditation from the Better Business Bureau, a feat that only two other companies in our area have achieved.

Setting the Superior Standard

"Our main focus is customer satisfaction," affirms Paul, continuing, "We go above and beyond."

With experienced, professional experts, Pioneer Protective Coatings, LLC most definitely sets

the superior standard for painting and waterproofing services in Martin, St. Lucie, and Indian River Counties. In fact, Paul reveals that if you call almost any paint store in the area and ask for their recommended waterproofing company, then they will direct you to Pioneer Protective Coatings! The business is trusted by everyone from single-family homeowners to luxury hotel managers. Additionally, Pioneer is one of just a handful of local businesses that work for St. Lucie County. "We do most of the painting and waterproofing work for all of the fire departments, libraries, schools, etc.," says Paul.

You can trust Pioneer Protective Coatings not only because of their 5-star reputation (just check out their Google reviews!), but also because the team is comprised of dependable, honest individuals who genuinely care about their work. It's no wonder, then, that they've all been working with Paul for 10+ years! Plus, each one of them has completed a background check, plus undergoes regular drug testing.

Of course, another key part of providing superior service is using a superior product, like Sherwin-Williams' LOXON XP Waterproofing Masonry Coating. Pioneer Protective Coatings, LLC exclusively utilizes this waterproof paint because it comes in a wide variety of colors, provides superb protection from water penetration, and comes with a 7- to 10-year warranty. For painting and waterproofing to last such a long time, especially in Florida, is "pretty good, especially on the water," explains Paul, adding, "And, you're not getting that unless you have it done right by somebody who knows what they're doing."

Waterfront Property Specialists

When your home or business is located on or near the water, it is highly-susceptible to damage and deterioration from both the salt water and salt air. Believe it or not, your waterproof paint job is one of your first and most important lines of defense. So, if your waterfront home isn't waterproofed, then you should call Pioneer Protective Coatings, LLC as soon as possible! Wouldn't you rather pay to prevent your investment from water penetration rather than pay an exorbitant amount to clean and/or reconstruct it later down the road? Don't forget that water damage often leads to mold and mildew problems, which can become very costly very quickly.

The good news is that Pioneer Protective Coatings, LLC is considered to be the "waterfront property painting specialists." After all, with 18+ years of experience, Paul and his team certainly know what it takes to properly protect a waterfront home or business from the damaging effects of water penetration.

"We do extra things and take extra precautions and measures on waterfront homes," clarifies Paul. Additionally, you can trust that Pioneer's waterproofing services are superior because they are inspected each and every time by the actual manufacturer of the waterproofing product. And, Paul proudly states, "We've never had it fail yet."

Passionate Quality Control

Paul is so passionate about his craft that he visits every job site to ensure superb quality and service. He cares very much about doing the best job possible, and so he makes sure that his staff members do as well. "We just

love what we do," he affirms, "All my crew loves what they do."

One of the crew members is Paul's own son, Dylan, who is following in his father's footsteps to provide the highest level of customer service. As part of the dedicated quality control team at Pioneer, Dylan double and triple checks that a project is going smoothly because, ultimately, the goal is to make everything simple and easy for the customer. "My main priority is to be a problem solver," Paul states, "and make the whole process streamlined. I just want you to come home and be happy when you pull in your driveway."

Choose the superior painting and waterproofing company in the tri-county area — Pioneer Protective Coatings, LLC — for your next residential or commercial project! Their passion for excellence is unmatched.
