A Parent's Guide to Accessing Their MY.SCOUTING.ORG Account

Every parent/guardian listed on a youth's application is given a custodial account when the youth is registered in the system. To use it, the parent must finish creating the account. Follow the steps below to get access.

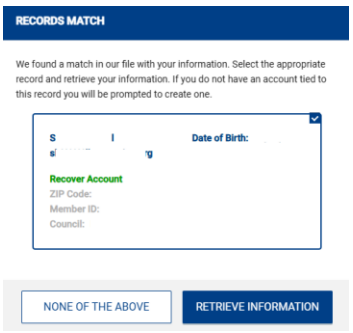

1. Go to **my.scouting.org** and select **Create Account**.

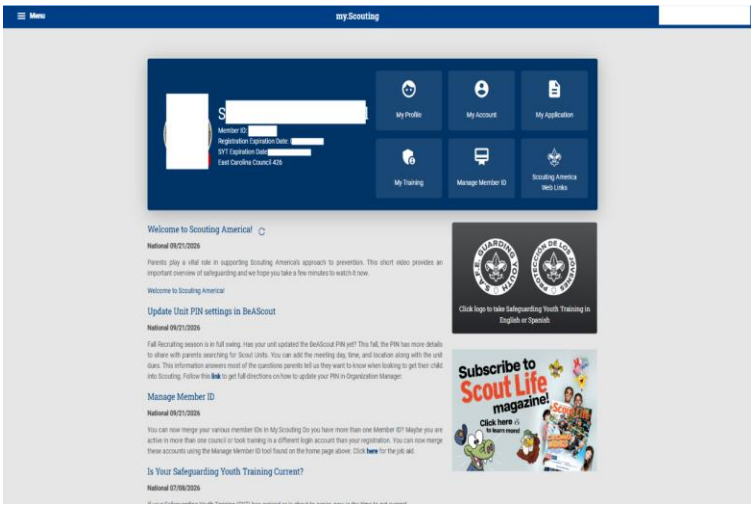

2. Enter the information **exactly as it was entered on the application**.

3. A record match screen should appear with your information. Select **Retrieve Information**.

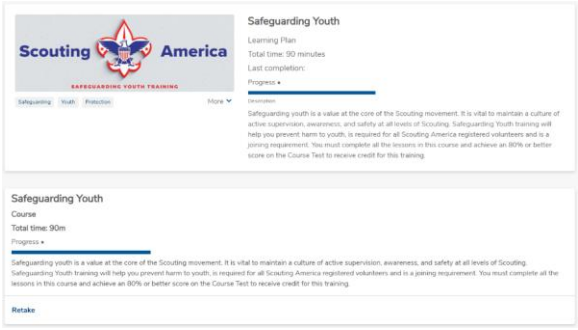

4. You will be asked to create a **username and password**. When you finish, you should see your home screen.

5. Select the **Safeguarding Youth** logo. Choose the English logo to take the course in English, or the Spanish logo to take it in Spanish.

6. Take the **90-minute course** for your initial training. This training is due once a year. Every year after your initial year, a **20-minute refresher course** is required.

> **Please note**
> This is not all of the training you will need to take. Depending on your position with your unit, additional training is required.

EVERY SCOUT DESERVES A TRAINED LEADER! BE THEIR LIGHT!
