

GLENLEA BEEF

Roma Bull & Female Sale

2026

53 Charolais Bulls
25 Red Factor Charolais Heifers
2 young Charolais Cows with calves

ROMA SALEYARDS
and via AuctionsPlus

WED 16 SEPTEMBER
Commencing at 11am

WELCOME TO THE 2026 GLENLEA BEEF ROMA BULL & FEMALE SALE

We come into Roma after a tremendous result at Winton on Friday 17 July. All 86 Charolais bulls sold to average \$10,733, with lot 6 topping at \$30,000. The 10 Simmental bulls averaged \$8,700 and topped at \$12,000, while the seven Charolais females averaged \$6,643 and sold to \$9,000. There was good value right through the catalogue, with repeat buyers securing 61% of the bulls and a strong number of new buyers purchasing Glenlea bulls for the first time.

For this ROMA sale we have catalogued 53 Charolais bulls, all polled and a very special draft of 25 Red Factor Charolais heifers, offered as "Pick of the Pair", full details in the catalogue, along with two outstanding young cows and calves.

The bulls have been bred and selected to go out and work in pastoral Queensland conditions. Growth, easy finishing, doing ability, temperament, soundness, carcass and maternal strength all matter. Our aim is to produce bulls that will add kilograms, improve saleability and give commercial producers more options to market progeny.

Glenlea Charolais bulls' reputation continues to grow. Our bulls combine breed-leading growth with easy finishing ability, adding real bottom-line returns for our clients. Weight pays, and getting cattle to put on the fat cover to hit any grid in the top bracket is what we breed them to do.

The Red Factor heifers are a real feature of this sale. They will be offered as "Pick of the Pair", with buyers selecting their pick from 11 pairs, and the final three offered as "Pick of the Three".

These heifers come from the heart of the Glenlea female herd and have been selected for performance, temperament, maternal strength, polled genetics and Red Factor. They have very high earning potential through their future progeny and represent a genuine investment in breeding profitable Charolais cattle.

We believe this is the largest single-vendor offering of Red Factor Charolais heifers in Australia. Glenlea has been breeding Red Factor Charolais for as long as we have been breeding Charolais - 54 years.

At the recent World Charolais Congress at the Brisbane Royal, Glenlea was recognised for more than 50 years of continuous membership and registration of Charolais cattle in the national herdbook. It is a milestone only a handful of Australian Charolais studs have reached, and very few ever will.

As always, every animal has been assessed on more than appearance. BREEDPLAN EBVs, performance records, carcass data, pedigree and the production history of the cow family all form part of the selection process.

The comments throughout the catalogue are there to help buyers identify how each bull or heifer may fit into your breeding program. We know these cattle, their dams and their bloodlines, and we are always happy to discuss which lots may best suit your cows, country and target market.

BUYER INFORMATION

This page provides practical information to assist buyers prior to sale day, including bull preparation, health standards, inspection details and post-sale support. Full terms and conditions are outlined separately under Conditions of Sale.

BULL HEALTH & PREPARATION

All Glenlea Beef sale bulls are prepared under the industry-endorsed Immune Ready Program, which focuses on vaccination, preparation and health documentation prior to sale. This helps reduce disease risk, support herd biosecurity and minimise setbacks after purchase. Glenlea sale bulls are vaccinated for:

- 3-Day Sickness
- 7-in-1
- Vibrio
- Pestivirus
- Botulism
- Tick fever

Bulls are prepared with low-stress handling in the lead-up to sale, and health status is documented through the National Cattle Health Declaration.

All sale bulls have been semen tested for motility and morphology.

SUPPLEMENTARY INFORMATION

A supplementary sheet containing any catalogue updates will be available from Wednesday 9 September via:

- AuctionPlus
- www.glenleabeef.com.au
- All agents listed in the catalogue

Buyers are encouraged to review the supplementary sheet prior to bidding.

INSPECTION DETAILS

Bulls will be available for inspection from midday on Tuesday 15 Sept at Roma Saleyards and will be penned from 9am on sale day.

Buyers are welcome to inspect the bulls before sale day and speak with Rod about bull selection, EBVs, lot comments and suitability for different cow herds and markets.

BULL PROGENY & TARGET MARKETS

Rod Binny provides individual lot comments to help buyers assess where each bull may best fit. These comments consider:

- phenotype and physical type
- maturity pattern and doing ability
- pedigree and EBVs
- likely progeny type
- potential target markets

Many bulls will suit more than one market, particularly as seasons and prices change. Having bred many of these bloodlines for generations, we understand how they perform.

The notes are provided as a practical guide only, as breeding outcomes can also be influenced by cow herd type, country, nutrition, management and seasonal conditions.

LOGISTICS & SALE DAY INFORMATION

- Phone bidding is available by prior arrangement through agents.
- Transport will be coordinated by GDL Roma.
- The Roma saleyard canteen will be operating on sale day.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

CONDITIONS OF SALE

SERVICE & GUARANTEE AFTER PURCHASE

All bulls are guaranteed to be capable of serving cows naturally at the time of sale and are covered by a six (6) month guarantee from sale day.

If a bull is proven to be infertile or unable to serve cows naturally during this period, and the issue is not caused by injury or disease contracted after the sale, Glenlea Beef will work with the purchaser to provide a suitable replacement bull or a credit towards a future purchase.

Any settlement will be less the salvage value of the bull.

CLIENT SERVICE & SUPPORT

Glenlea Beef provides practical support before and after sale to help clients select bulls suited to their cow herd, country and target markets.

Support may include:

- EBV interpretation and breeding advice
- bull selection support tailored to your system
- practical guidance on progeny type and market suitability
- ongoing support in conjunction with local agents

We are committed to working with clients and agents to help achieve strong commercial outcomes from Glenlea-sired cattle.

INSURANCE

Buyers are strongly encouraged to insure their new bulls from the time of purchase.

Elders or GDL can arrange insurance at the fall of the hammer on sale day.

AGENT REBATE

A 2% rebate is available to licensed agents who:

- Introduce buyers at least 24 hours prior to the sale, and
- Settle accounts within seven (7) days of sale.

SETTLEMENT & TRANSFER OF RISK

Settlement terms and transfer of risk apply in accordance with standard livestock auction conditions.

Buyers should ensure insurance arrangements are in place from the time of purchase.

ACCURACY OF CATALOGUE

Every effort has been made to ensure catalogue information is accurate at the time of publication. However, errors may occur in compilation or printing.

Any corrections or updates will be included on the supplementary sheet where practical. No warranty is given.

Comments:

Our great friends at Calmview Charolais, Tony and Suzie Farrell, wanted to offer a draft of bulls at our Roma sale this year. They selected such outstanding bulls from the very top of their 2024-born bulls that we decided to start the sale with them.

- V112 is a big, strong Red Factor bull.
- PP polled with slick hair type.
- Big carcass-yielding sire.
- Moderate Birth Weight.

DAM: GLENLEA CHAROL 120TH (GLE R46E) (P/S)

GLENLEA CHAROL 75TH (GLE J42E) (P)

EBVs: Top 3% of the breed for 400- and 600-day growth, Carcass Weight and Mature Weight, top 10% IMF%, top 15% 200-day growth, top 20% Milk and EMA, moderate Birth Weight.

Comments:

- Big-framed, long, heavy polled bull with massive weight-for-age and a seedstock prospect.
- Ideal for heavy feeders to bullocks; his progeny will be first on the truck!
- Near-tropical hair type, only 20 months old and nearly 900kg in the photo.
- Very balanced data, including maternal traits. Dam is a leading female in the herd from one of our oldest cow families; his daughters will be high-value replacements.

Comments:

- We always keep a good bull for the last lot in all our sales; only 20 months old in the photo.
- Easy-finishing, with extra performance, PP polled and Gold. His progeny can be targeted and finished for all markets, either grass or grain finished.
- Dam is a donor and one of the highest-performance cows in the whole Glenlea herd. V122 has among the best data sets in the whole sale, and daughters retained will add value to progeny for years to come.

Glenlea Red Factor Heifers

IMPORTANT INFORMATION ABOUT GLENLEA RED FACTOR FEMALES

This year we wanted to offer something next level in our females for our Roma Sale.

Our breed in the 2020s has truly come of age in the wider Australian cattle industry, with premiums paid across all sectors for Charolais-influenced cattle. As seedstock producers, we see this in the increasing numbers of Charolais bulls offered and sold, along with sale averages now surpassing many other breeds. It is not just established breeders achieving strong results either, with newer breeders also being rewarded for investing in superior genetics.

Accessing superior sires is relatively easy in our breed, especially through semen. Acquiring genetically superior females is much harder. Every Charolais seedstock breeder wants the best females they can find to build on their herd, offering something extra special to enhance their herd, give pleasure of ownership and provide a high return on investment.

We are very confident this offering of Red Factor, Polled heifers achieves that goal. Selected from more than 200 Red Factor heifers, these are from the very top for phenotype, performance data and their amazing cow families. They are the leading edge of our 2025-born red heifers.

This type of opportunity usually only comes along in a major dispersal sale. Since our humble beginnings more than 50 years ago, Glenlea has always been collaborative with other breeders, and sharing these heifers is part of continuing that tradition. We are offering the lead of our heifers, not the middle run, in a "Pick of the Pair" format, meaning two lots will enter the ring, with the successful purchaser selecting one and Glenlea retaining the other.

Health treatment of heifers: All heifers have been blooded and can enter cattle tick areas immediately from sale.

REFERENCE SIRE

Glenlea Kowboy Red Q405 (P)

GLE Q405E

Age in photo: 30 months.

GLENLEA INCENTIVES FOR OUR RED FACTOR HEIFERS

In addition to offering our best, we have our largest range of incentives to make these heifers even greater value buying. It is always easier to make the decision to invest when there is a great deal alongside quality.

1. Junior members: 50% of the purchase price on normal sale terms, with the balance interest-free for four months, due 16 January. Terms and conditions apply and approval must be obtained prior to sale. Contact the vendor or your preferred agent for details.

2. Showing of heifers: Glenlea prize money of \$1,000 is available for a Junior Championship win. These heifers will all be suitable for showing in Junior classes in 2026/27.

3. First male progeny: The first male progeny of your heifer/s is eligible to sell at Glenlea's bull sales in Queensland, giving access to established production sales. This has never been offered publicly before.

4. Guarantee: Our normal guarantee for breeding females applies. In addition, if you are not happy with your Glenlea heifer for any reason in the first 12 months, return her for a full refund. To our knowledge, we are the only stud to have offered this publicly.

5. Fixed freight costs: Fixed freight costs apply to Wodonga Saleyards and east of Roma to Casino, NSW, via Dalby, where arranged by Glenlea. For northern buyers, the same applies from Roma to Winton via the Warrego Highway.

*Terms and conditions apply to these offers.
Contact the vendor or your preferred agent for details.*

- Long-bodied, classic wedge-shaped polled cow in her prime.
- Very stylish polled heifer calf at foot, five months old, with an outstanding data set.
- Joined to Reids TY (PP) (R/F), a dark red sire, so the calf will be polled and gold!

DNA not tested.

Comments:

- Powerful breeding female with terrific overall shape and eye appeal; she will produce high-selling sons in any herd.
- These heifers have been prepared in wet winter conditions at Casino, NSW, and are exhibiting some hair in the photos; all are soft, fine-haired and will slick right off in drier conditions.
- Sire is a very proven reference sire.
- Dam is an outstanding Fairfield matron from a powerful old Fernvale cow family, with bloodlines unavailable anywhere else.

LVH-FAIRFIELD ANNIE 2 (LVH C13E) (P)

EBVs: Top
20% 200-day
growth, top
30% 400-day
growth.

Comments:

- Very appealing heifer with volume, fine hair and loose hide, with so much potential.
- Would breed progeny ideal for southern or northern markets with correct sire selection.
- Dam is one of our favourite Fairfield matrons with proven bloodlines and another tremendous cow family, the "Cindys" from Gunnadoo.

DNA results pending. Details to be provided in Supplementary Sheet.

JAY TEES QUAFF (JT Q19E)

EBVs: Top 10%
Milk, top 15%
EMA, top 25%
IMF%.

Comments:

- Such a good heifer.
- We don't want to sell any of these, which is why we are offering them as "Pick of the Pair" - the successful bidder takes their pick and we keep the other.
- Dam is an exceptional first calver that is an ideal type by any measure.

DNA results pending. Details to be provided in Supplementary Sheet.

FERNVALE BROCADE (FEN B23E)

EBVs: Top 5% EMA, top 20% Fat Cover, top 25% IMF%, top 30% Milk, with all growth traits well above breed average.

Comments:

- Polled and Gold, with such a supple skin and so balanced phenotypically; anyone would want to own her.
- Dam is a powerful Fairfield matron, tracing back to a top Fernvale cow family.
- Glenlea has bought many herds, big and small, over the last 10 years to grow and the Fairfield herd was the biggest, and the females we have retained are very highly valued.

DNA results pending. Details to be provided in Supplementary Sheet.

LVH-FAIRFIELD BROCADE (LVH E69E) (P)

EBVs: Top 6%
Fat Cover, top
10% IMF%.

Comments:

- I challenge any breeder in Australia to offer a line of Red Factor polled heifers of this calibre, we do it to share our best with all Charolais breeders.
- Brocade 5th is soft and stylish, could win a show at the highest level and will go on to breed high-selling sons.
- An investment that will produce excellent returns financially and in the pride of ownership.

DNA results pending. Details to be provided in Supplementary Sheet.

DAM: GLENLEA DESIRE 61ST (GLE S525E) (P)

ALLEDNAW DESIRE K56 (AKT K56E) (P)

EBVs: All carcass traits well above breed average.

Comments:

- Desire 44th puts volume, carcass and balance together.
- Such an eye-appealing, early-maturing phenotype.
- Dam is a picture-perfect young cow, descended from a great cow family from the Taylor family's Allednaw Stud.

DNA results pending. Details to be provided in Supplementary Sheet.

DAM: HUON JESSY (DG1 J27E)

GOBONGO F273E (GO F273E)

EBVs: Top 10% Milk, top 15% IMF%, top 20% EMA and Fat Cover. 200- and 400-day growth and Mature Weight above breed average.

Comments:

- Big-bodied, early maturing, with great carcass.
- Will produce some great sons joined to any sire.
- Jessy traces her cow family back to a Gobongo great.
- Many average heifers can look very nice with feeding, clipping and a good stance in a photo; not many have the strength of breeding of generations behind them like all these heifers do.

DNA results pending. Details to be provided in Supplementary Sheet.

DAM: WATERFORD RAIN BLOSSOM R6 (WET R6E) (P)

WATERFORD LADY GINA N36E (WET N36E) (P)

EBVs: Sire has little recorded data to date. This heifer is from one of his first calf crops, and we would expect her growth data to increase as more data is added to BREEDPLAN.

Comments:

- The first of three dark red heifers; we will be selling the pick of three for these.
- Early-maturing, low Birth Weight heifer with thickness and good finish.
- Dam is a tremendous, easy-doing young cow who has produced excellent progeny to date, including her 2023 and 2024 sons, sold as yearlings.

DNA results pending. Details to be provided in Supplementary Sheet.

DAM: LVH-FAIRFIELD NANNY J88E (LVH J88E)

LVH-FAIRFIELD NANNY 2 (LVH E170E) (P)

EBVs: Breed average growth, with all positive carcass traits and top 15% Fat Cover.

Comments:

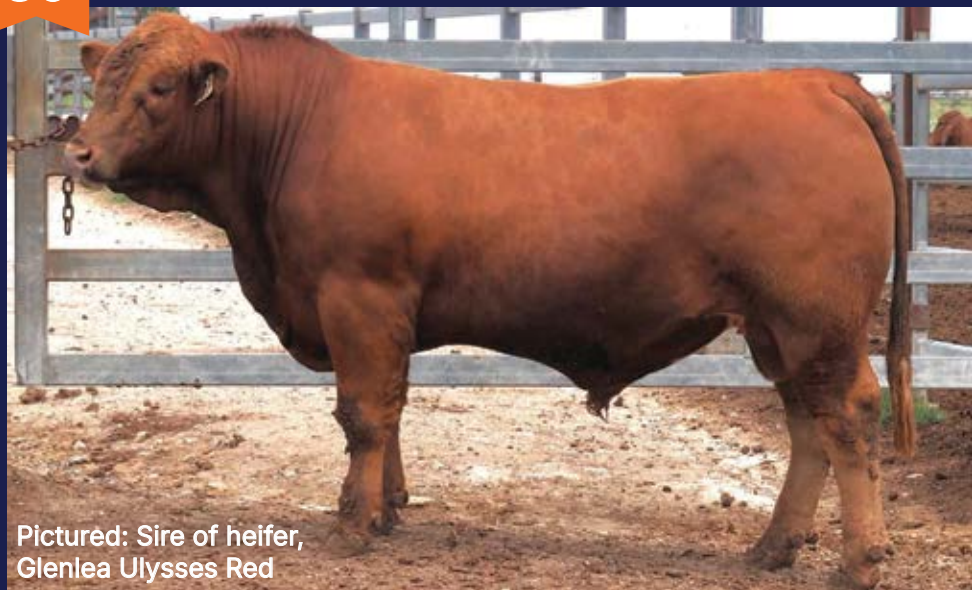

- Body volume, carcass shape, length and balance; a very appealing heifer.
- Sire, Tabasco Red, has outstanding heifers on offer throughout this line-up.
- Dam is another Fairfield matron, sound as a bell and looks half her age, at 13 years old, she is raising another calf in 2026.

DNA results pending. Details to be provided in Supplementary Sheet.

DAM: GLENLEA NOLANA 160TH (GLE 22T239E) (P)

GLENLEA NOLANA 120TH (GLE Q9E) (P)

EBVs: All carcass traits are breed average or better.

Comments:

- Youngest heifer in the sale. Her sire, Ulysses Red, is pictured, and this heifer will be his first daughter offered.
- Long-bodied, very feminine through the front end, with a thick rump and good finish.
- Dam is from one of our oldest cow families, the Nolanas.
- This heifer is the first calf from a big-volume, easy-doing, perfect-uddered Nolana that will stay in the herd until her last calf.

DNA results pending. Details to be provided in Supplementary Sheet.
