- **4** PTIC Cows with bull calves at foot & **2** PTIC Heifers

100% POLLED

WINTON SALEYARDS
and via AuctionsPlus

FRIDAY 17TH OF JULY
Commencing at 11am

WELCOME TO THE 2026 GLENLEA BEEF WINTON BULL SALE

We are excited to bring this impressive draft of powerful, performance-recorded Charolais and Simmental bulls for our annual bull sale at Winton.

Winton is our flagship sale for Glenlea Beef, its evolution from small beginnings in 2019 to now the largest auction offering of Charolais bulls in northern Queensland. Giving Central, Western and Northern Queensland producers access to bulls selected for growth, structure, temperament, doing ability and commercial relevance.

Glenlea Beef has now passed 54 years of continuous Charolais seedstock production. The aim has stayed much the same over that time, to breed Charolais cattle that help commercial producers put more kilograms of beef out the farm gate from the same cows and land base.

Today, Glenlea Beef is one of Australia's largest Charolais seedstock producers, backed by a 1000+ cow herd and up to 300 bulls sold annually. That scale allows us to offer consistent lines of bulls while still keeping pressure on the traits that matter. The bulls are assessed for performance, soundness, temperament, carcass merit, maternal background and suitability to pastoral based production systems.

Charolais sires have a strong place in Queensland herds, adding weight, carcass yield and market flexibility. Used over Bos indicus-based females, they can help lift weight-for-age, improve carcass value and give producers more options across weaner, feeder and bullock markets.

Each lot is backed by BREEDPLAN EBVs, performance data and visual assessment. My comments throughout the catalogue are included to give buyers a little more insight to where each bull may suit, the type of progeny he may leave and the markets he may help target, along with your own assessments. Keeping in mind, type of country, cow herd and management have a major impact on progeny.

Red Factor Charolais are a long-standing strength within the Glenlea herd. For northern producers, they offer a practical option where colour consistency, adaptability and market alignment matter, without moving away from the growth, structure and carcass performance Charolais cattle are known for.

We invite you to inspect the bulls before sale day, talk through the catalogue and ask which sires may suit your cow herd, country and market.

Join us at Winton Saleyards from 2 pm on Thursday 16 July for Beers, Bulls & Steaks. Walk through the bulls, enjoy Glenlea beef, meet the team and join practical discussion on BREEDPLAN, EBVs and how the data presents in bulls physically and therefore their progeny.

We look forward to seeing you at Winton.

Roderick Binny
Stud Principal

**MORE BULLS.
MORE CHOICE.**

Winton Bull Sale

Friday 17 July at 11am

Winton Saleyards, QLD. Online bidding via AuctionsPlus.

**98
Bulls**

**100%

BUYER INFORMATION

*This page provides practical information to assist buyers prior to sale day, including bull preparation, health standards, inspection details and post-sale support. Full terms and conditions are outlined separately under **Conditions of Sale**.*

BULL HEALTH & PREPARATION

All Glenlea Beef sale bulls are prepared under the industry-endorsed Immune Ready Program, which focuses on vaccination, preparation and health documentation prior to sale. This helps reduce disease risk, support herd biosecurity and minimise setbacks after purchase. Glenlea sale bulls are vaccinated for:

- 3-Day Sickness
- 7-in-1
- Vibrio
- Pestivirus
- Botulism
- Tick fever

Bulls are prepared with low-stress handling in the lead-up to sale, and health status is documented through the National Cattle Health Declaration.

All sale bulls have been semen tested for motility and morphology.

SUPPLEMENTARY INFORMATION

A supplementary sheet containing any catalogue updates will be available from Monday 13 July via:

- AuctionPlus
- www.glenleabeef.com.au
- All agents listed in the catalogue

Buyers are encouraged to review the supplementary sheet prior to bidding.

INSPECTION DETAILS

Bulls will be available for inspection from 12pm Thursday 16 July at Winton Saleyards and will be penned from 9am on sale day.

Buyers are welcome to inspect the bulls before sale day and speak with Rod about bull selection, EBVs, lot comments and suitability for different cow herds and markets.

BULL PROGENY & TARGET MARKETS

Rod Binny provides individual lot comments to help buyers assess where each bull may best fit. These comments consider:

- phenotype and physical type
- maturity pattern and doing ability
- pedigree and EBVs
- likely progeny type
- potential target markets

Many bulls will suit more than one market, particularly as seasons and prices change. Having bred many of these bloodlines for generations, we understand how they perform.

The notes are provided as a practical guide only, as breeding outcomes can also be influenced by cow herd type, country, nutrition, management and seasonal conditions.

LOGISTICS & SALE DAY INFORMATION

- Phone bidding is available by prior arrangement through agents or the vendor.
- Transport will be coordinated by Scott Taylor of GDL Winton
- Complementary lunch & available on sale day, courtesy of Elders Winton, GDL Winton & Glenlea Beef.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select **"Sign Up"** in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select **"Dashboard"** and then select **"Request Approval to Buy"**.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

CONDITIONS OF SALE

SERVICE & GUARANTEE AFTER PURCHASE

All bulls are guaranteed to be capable of serving cows naturally at the time of sale and are covered by a six (6) month guarantee from sale day.

If a bull is proven to be infertile or unable to serve cows naturally during this period, and the issue is not caused by injury or disease contracted after the sale, Glenlea Beef will work with the purchaser to provide a suitable replacement bull or a credit towards a future purchase.

Any settlement will be less the salvage value of the bull.

CLIENT SERVICE & SUPPORT

Glenlea Beef provides practical support before and after sale to help clients select bulls suited to their cow herd, country and target markets.

Support may include:

- EBV interpretation and breeding advice
- bull selection support tailored to your system
- practical guidance on progeny type and market suitability
- ongoing support in conjunction with local agents

We are committed to working with clients and agents to help achieve strong commercial outcomes from Glenlea-sired cattle.

INSURANCE

Buyers are strongly encouraged to insure their new bulls from the time of purchase.

Elders can arrange insurance at the fall of the hammer on sale day.

AGENT REBATE

A 2% rebate is available to licensed agents who:

- Introduce buyers at least 24 hours prior to the sale, and
- Settle accounts within seven (7) days of sale.

SETTLEMENT & TRANSFER OF RISK

Settlement terms and transfer of risk apply in accordance with standard livestock auction conditions.

Buyers should ensure insurance arrangements are in place from the time of purchase.

ACCURACY OF CATALOGUE

Every effort has been made to ensure catalogue information is accurate at the time of publication. However, errors may occur in compilation or printing.

Any corrections or updates will be included on the supplementary sheet where practical. No warranty is given.

- Long-bodied, with good bone, a balanced carcass and a loose, supple hide.

Glenlea Stud females offered for the first time at our Winton sale!

Following requests from buyers over the past two years, Glenlea will offer females at Winton for the first time. These five females have been specially selected from their respective mobs and represent leading stud genetics. Each has the quality and breeding potential to produce high-performing sale bulls and would otherwise have had a long future in the Glenlea herd.

Glenlea Phoenix (PP) R/F - Sire of Lot 98 (T330) and Lot 99 (T341).
Performance Champion! Breed trait leader for all growth traits, Carcass Wt, EMA.

Bull calf at foot of Lot 98 (T330). Ready to wean into your herd!

Comments:

- Tremendous polled first-calver, Isabella T330, from one of our leading high-performance cow families. Sired by Phoenix, our performance champion sire.
- Length, depth of body, perfect udder and slick hair type. Performance females like this are where our bulls come from!
- Her 10-month-old bull calf at foot is thick-bodied, docile and PP polled by pedigree. Sired by exciting new Canadian AI sire SVY Historic, he is ready to wean and, with good nutrition to grow into his potential, will develop into a quality sire. *(Calf pictured above)*

Comments:

PTIC details in Supplementary Sheet.

- Powerful polled first-calver with performance, volume, a perfect beef udder and slick hair type.
- Her nine-month-old polled bull calf at foot is ready to wean. A long-bodied, well-shaped son of Taylor/Glenlea Windmaker, a sire we have used extensively over heifers with near-perfect unassisted calving and an excellent combination of carcass and growth.
- Combines two of Glenlea's most powerful polled Red Factor legacy sires, Big Gun and Phoenix.

Comments:

PTIC details in Supplementary Sheet.

- Earlier-maturing, good-volume, PP polled young cow. Calved at two years, with her second calf now at foot. Her eight-month-old bull calf is an excellent calf and the first offered by Glenlea Ulysses Red (PP) R/F, a new Red Factor, PP polled sire.
- From the Charol cow family, with 50 years of production. Dam is a donor cow. Sired by Quintus, a breed-leading performance sire with several sons in this sale.
- Perfect udder, fine hair type, good bone and a very appealing female. Square-bodied, good frame and excellent weight for age. Light red and PP polled by pedigree.

Comments:

- What a quality female to finish the sale with. Big, strong, deep-bodied heifer with a very docile nature, frame, bone and finish.
- From the Nolana cow family, with more than 50 years of history in the Glenlea herd. Nolana 155th is as good as any of them!
- Sired by Red Rascal, whose first daughters have calved and produced outstanding progeny, with several outstanding yearling sons offered in this sale.
- Expect a perfect udder, good milk and plenty of growth in her progeny. All these females have been selected from our replacements, so you can buy with complete confidence, backed by the Glenlea guarantee.
- PTIC to new sire CVW Monarch Red (PP) R/F, a thick-bodied, early-maturing, PP polled Red Factor sire with breed-leading Carcass data. Due to calve from late August. Calf will be PP polled by pedigree.
