

GLENLEA BEEF

CLERMONT BULL SALE

11am, Friday 16th August 2024

Clermont Saleyards, QLD and via AuctionsPlus

Lot 1

ON OFFER: 37 Polled Charolais Bulls and 4 Polled Simmental Bulls

Selling Agents: Elders, Kennedy Livestock & Nutrien

WELCOME TO OUR 2024 CLERMONT BULL SALE

Celebrating 50 Years of Excellence in Charolais Seedstock Production!

Since 1974, Glenlea Beef has been at the forefront of Charolais breeding in Australia, driven by a vision to maximise beef production through superior genetics. As we celebrate half a century of continuous innovation and dedication, our commitment to enhancing productivity remains unwavering.

From our humble beginnings, Glenlea Charolais has navigated both prosperous and challenging times with resilience and ingenuity. A significant milestone in our journey was the acquisition of the entire herd of Fairfield Charolais females from Lindsey and Belinda Hindle in 2021, expanding our herd to 1,000 cows. Today, our annual bull sales in Winton, Clermont, and Roma are a testament to our focus on CENTRAL and NORTHERN QUEENSLAND, allowing us to take our bulls to our clients!

Why Choose Charolais Bulls?

Charolais bulls offer unparalleled growth and carcass yield, translating to higher returns for your calves in the market. They reach weight specifications faster, saving on feed costs and providing flexible trading options. As bullocks, their exceptional growth rate ensures they meet weight specifications at milk and 2-tooth, further enhancing feed efficiency and enterprise options.

The Glenlea Advantage

Investing in Glenlea bulls means choosing top-tier genetics that excel in all measurable growth traits. Our bulls are selected for natural doability over generations, featuring leading

maternal genetics that add substantial value to your cow's production for years to come. Our commitment to quality is backed by objective data through BREEDPLAN EBVs.

Unmatched Service and Guarantee

At Glenlea Beef, your satisfaction is paramount. We offer an uncomplicated guarantee: if you encounter any issues with your Glenlea bull, we will provide a replacement and cover the freight. With over 300 bulls produced annually, our priority is ensuring our bulls get your cows in calf. We also offer free delivery to all major centres in Queensland, from our bull base in Condamine.

Looking Ahead

The future of Glenlea Beef is bright. We are in the final stages of developing a program to purchase back progeny from our clients, supporting a branded beef initiative. This upcoming program will allow us to offer market premiums for your Glenlea-sired progeny through your agent.

Value Added to Your Calves

Glenlea genetics deliver exceptional weight gain through performance-recorded traits and add genetic value to your retained heifers, providing lifetime returns. Soon, our progeny buyback program will offer additional market premiums, ensuring continued value from Glenlea genetics.

Experience the Glenlea difference and elevate your cattle operations with our unparalleled expertise and trusted Charolais genetics.

Regards,

Roderick Binny

CLERMONT BULL SALE

11am, Friday the 16th of August 2024

Sale to be held at Clermont Saleyards, QLD and via AuctionsPlus

LUNCH AND REFRESHMENTS

Lunch and drinks will be served from the Saleyard Canteen and will be compliments of Glenlea Beef.

37 Charolais Bulls & 4 Simmental Bulls

All Polled. Featuring 15 Red Charolais Bulls.

BULL HEALTH AND FERTILITY

All Glenlea bulls are meticulously cared for and maintained to ensure optimal health and fertility. They have been vaccinated for 3 germ blood, 3-day sickness, botulism, and with 7-in-1. Each bull undergoes rigorous semen testing, including assessments for motility and morphology.

SUPPLEMENTARY SHEET

An updated supplementary sheet will be available from Monday 12th August. This sheet will include the latest information on weights, carcass scans, and semen test results.

GUARANTEE

We guarantee that all bulls are capable of natural service at the time of sale and for 6 months thereafter. Should any bull prove infertile or unable to serve cows naturally, excluding injury or disease contracted post-sale, we will replace the bull with one of similar quality or provide credit towards a future sale, adjusted for the salvage value of the bull.

INSURANCE

We highly recommend insuring your new bulls. Elders can arrange insurance for you at the fall of the hammer on sale day.

AGENT REBATE

A 2% rebate is available to all licensed agents who introduce buyers at least 24 hours prior to the sale and settle accounts within 7 days.

REFRESHMENTS

Enjoy a complimentary lunch and drinks provided by a local service club on behalf of Glenlea Beef. Even if you're not purchasing a bull this year, come along to inspect the bulls and enjoy a meal with us.

PHONE BIDDING

Phone bidding is available by contacting the agents or vendor prior to the sale. A dedicated agent will assist you with your bidding.

TRANSPORT

Delivery will be coordinated by Kennedy Livestock to ensure a smooth and efficient process.

BULL PROGENY AND TARGET MARKETS

Our experienced stud principal, Rod Binny, offers personalised suggestions on individual lots regarding target markets for progeny. While many bulls are versatile and suit various markets, these recommendations consider the bull's physical body type, maturity pattern, doability, pedigree, and EBVs.

We have bred many of these bloodlines for generations, giving us deep insights into their breeding potential. However, factors such as seasonal conditions, cow herd breed makeup, management, and the type of country your cattle run on can affect breeding outcomes.

ACCURACY OF CATALOGUE

Every effort is made to ensure the accuracy of the catalogue. However, errors can occur in its construction and printing. We commit to resolving any issues to the best of our ability but do not provide any warranty.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

I've witnessed firsthand how Australian Charolais breeders have embraced performance recording, setting us apart from other countries that have reduced their efforts. My experiences in North America have shown me the superior accuracy and detail of our data, **making Australian evolved genetics the best in the world for advancing your herd. These genetics are specifically tailored to our environments and markets**, with extensive individual data helping us, as seedstock producers, identify positive influences.

Glenlea Beef has grown into a significant seedstock enterprise, now totalling 1,000 Charolais females, including the acquisition of the Fairfield herd in 2021. Over the past decade, we have been using **Australian-bred sires** to further evolve our herd, as they are best adapted to our country and markets.

Our herd's **genetic base** is now as diverse as the breed in Australia, incorporating a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. At the heart of our program are several Glenlea cow families with origins dating back over 40 years, whose descendants can be found not only in our herd but in many studs throughout the country. This diversity allows us to meet the demands of various markets and geographical areas, from higher growth and yield types for northern markets over Bos indicus cows to more moderate, early

maturing types. Our catalogue comments and EBVs on individual lots will highlight these variations, ensuring you find the right fit for your operation.

Our breeding strategy focuses on producing powerful performance cattle with a medium to moderate frame score and a complete carcass. This means achieving above-average yield, EMA, fat cover, and IMF%. We measure birthweights to help our bull clients make the best selections for their operations, maintaining calving ease through BW and early gestation length.

We prioritise **maternal strength**, focusing on fertility, milking ability, great udders, and moderate-sized teats for longevity. Although Charolais is primarily a terminal breed, especially in northern markets, Charolais x heifers are retained in their thousands. As seedstock producers, we always keep our customers—and their customers—in mind when making breeding decisions, as these decisions ripple down the supply chain with significant impacts.

Polled genetics in our breed have progressed to match horned bloodlines for every economic trait. While our herd still includes a number of horned females, these are joined with homozygous polled sires. Over the last five years, 98% of our calves have been polled, many homozygous, with all testing results available in our catalogue or supplementary sheet.

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

BREEDPLAN is a genetic evaluation tool that has been proven over 30 years across many breeds and countries. While we no longer print detailed general explanations in our sale catalogues, this information is readily accessible online. We are happy to explain any finer points of EBVs as they relate to the Charolais breed and our cattle—just call and ask! Each lot's comments include our summary of the printed EBVs.

Customer service is at the heart of Glenlea Beef. We spend much of our time traveling to visit both commercial and stud clients, offering a full range of services. Your success is our success. We provide many services to all our clients, from basic support to full stud breeding and marketing assistance. We are here to help you achieve the highest possible price for your Glenlea-sired stock, working closely with you and your agents.

For more information about Glenlea Beef, please contact Stud Principal Roderick Binny 0409 911 791.

**We've been identified as a
'Top Stud'**
in Bush AgriBusiness' Top Studs 2024
publication

This recognises that our genetics, expressed through the maternal Breedplan indices, are in the top half of the breed. Across all studs in Australia, there are only 237 that made the list.

TOPSTUDS

www.bushagri.com.au/topstuds

Top price bull in this sale in 2023, Glenlea Muscles T630 (PP). Yearling bull. Sold for \$11,500 to 1st time buyer Wayne Davies, "Woonon Grazing", Sarina. Wayne on left with Roderick Binny Glenlea Stud Principal and agent James Saunders.

EBV	-0.4	+13	+32	+28	+34	+6	+1.2	+0.8	-1.1	0.0

COMMENTS: Powerful carcass sire to lead off the sale. Early maturity, good bone with low BW and calving ease, double polled and an almost tropical skin type! A sire prospect to produce herd bulls or stud animals, market topping weaners, and high value replacement heifers to keep or sell. Sire has 214 registered progeny and is producing outstanding carcass cattle while maintaining calving ease and strong maternal traits of calving ease and milking ability, which fits our breeding goals to a tee! His dam is one of our best older matrons, with a great udder, who has produced many high selling progeny. He is only 21 months in photo and showing such masculine type. **Progeny will suit all markets.**

Updated EBVs and DNA testing will be available in the supplementary sheet.

EBV	-0.4	+15	+35	+30	+39	+8	+0.9	+2.3	-0.6	0.0

COMMENTS: What a pair these first two bulls are! This fellow has a little more fat cover than his half-brother and that's a perfect reflection of the two dams. Double polled, slick skin type, good bone and outstanding dam that has a great production record, her daughters have been retained and a son that sold for \$9,500 at our sale last month in Winton. He is only 21 months in photo and like his half-brother, a very masculine type. **Progeny will suit all markets.**

Updated EBVs and DNA testing will be available in the supplementary sheet.

Acc	71%	66%	66%	64%	58%	53%	71%	49%	53%	48%

COMMENTS: A class bull by any measure! Bone, growth, carcass, double polled and low BW with amazing maternal data. A true curve bending bull with a great phenotype, a complete bull! His sire has been an outstanding sire for us, also siring last year's top priced bull in our Clermont sale. His dam has been a great donor cow for us, over \$100,000 in progeny and genetics sales. Her son "Pheonix" has been a great breeding bull with 9 sons averaging \$11,055, including 4 yearlings at our sale at Winton last month! EBVs show top 5% for carcass weight, top 15% for all growth traits, top 20% for fat cover, and all positive carcass traits, combined with top 1% for milk, top 10% for daughters calving ease, top 15% for low BW and low gestation. Amazingly 14 out of 16 recorded EBVs well above breed average, herd improver by all measures! **Progeny will suit all markets.**

Acc	71%	66%	66%	64%	57%	48%	71%	48%	53%	47%

COMMENTS: Powerful sire ideal for weaners to bullocks out of Brahman cows, a real impact sire! Red factor, polled, good bone, extra carcass yield, growth and very docile. 21 months old in photo, he just wouldn't pose for his catalogue photo, will impress in the flesh! His sire has had a tremendous influence on our herd with one of his daughters producing the top priced female at the recent Charolais National Sale during BEEF '24 in Rockhampton, selling for \$26,000 at 13 months old. His dam is one of our most valued cows with massive volume, carcass with outstanding udder and teats. EBVs top 10% for 600-day weight and beef yield!

Acc	59%	55%	52%	51%	46%	38%	53%	38%	43%	37%

COMMENTS: Outstanding bull that we like so much about. Growth, docility, tropical like skin, overall carcass yield, DNA tested PP Polled and Red coat color! His sire has produced some of our leading bulls in the last two years, and this fellow may well be his best! Dam is destined for the donor paddock, producing our top priced bull last year at our Roma sale at \$20,000, her 2019 daughter was Junior Champion Charolais female at BEEF '21, then went on to be a foundation donor cow for her new owners. This bull will suit all markets from weaners to bullocks and with his combination of growth carcass yield, fat cover and IMF%, his progeny would pick themselves being entered in paddock to plate competitions! EBVs top 10% all growth traits, milk, carcass wt. and IMF%. With all positive carcass traits above breed average. Total of 13 out 16 EBV recorded traits above breed average. **Herd improver by definition!**

COMMENTS: A very growthy, tropical skinned, DNA tested PP polled red Charolais bull with excellent fat cover! We purchased this bull's sire for a record price in 2022 down south, we have a number of progeny we have from our JV with Challambi stud when "Rover" was used as a yearling, this is the lead bull of that group. Dam is an early maturing cow, great udder that combined very well with the performance bull "Rover" to produce this excellent bull. **Progeny ideal for heavy feeders and bullocks, daughters will be valued replacement heifers.**

EBVs - his growth numbers will increase with updated data, available in supplementary sheet at sale. EMA top 1% IMF%, top 15% EMA and fat cover.

Acc	67%	57%	52%	51%	45%	33%	50%	34%	39%	33%

COMMENTS: Performance bull, easy doing, early maturing phenotype, strong polled head. Very consistent sire, with this being one of his best sons, Dam is a great producer in her prime, with extra carcass and growth in an early maturing phenotype, just like her son! Progeny will suit all markets. **Suitable for heifers**

EBVs top 20% EMA, fat cover, short gestation and low BW, all growth traits above breed average. A total of 13 traits out of 16 recorded in the Charolais breed above breed average.

Acc	58%	55%	53%	51%	46%	37%	53%	39%	43%	37%

COMMENTS: A unique sire out of our red Charolais program - purebred Charolais, dark red due to having both red parents, with both passing on the red gene and neither the white diluter gene that make Charolais white. This bull will make apricot progeny out of any white cows and black calves from black cows. Extra-long bull, growth, good finish and carcass, PP polled, **ideal for weaners over white cows to add colour or to grow out to heavy feeders and bullocks.**

EBVs top 5% all growth traits, carcass wt, top 10% EMA, top 20% IMF, positive fat and beef yield. 12 out of 16 traits well above breed average including all growth and carcass traits.
