

WINTON BULL SALE

12noon, Friday 19th July 2024

Winton Saleyards, QLD and via AuctionsPlus

38 Charolais Bulls on offer - 36 Polled, 20 Red Factor

Selling Agents: Elders and GDL Winton

WWW.GLENLEABEEF.COM.AU

WELCOME TO OUR ANNUAL WINTON BULL SALE

Glenlea Beef is Celebrating 50 Years of Continuous Production of Charolais Seedstock in 2024!

Our simple vision was all those years ago was to produce more kg of beef from our cows and existing land base using Charolais genetics. That productivity boost still drives our program today. From modest beginnings Glenlea Charolais found innovative pathways to grow through good and tough times.

In 2021 we purchased the entire herd of Fairfield Charolais females from Lindsey and Belinda Hindle to add to our growing Charolais cow herd now numbering 1000 cows.

With 3 bull sales again this year in Winton, Clermont and Roma. Our focus is CENTRAL and NORTHERN QUEENSLAND with our bull sales, now and into the future. Taking our bulls to our clients!

WHY SHOULD I USE CHAROLAIS BULLS?

The extra growth and carcass yield add KG and cents per/kg to your calves in the market. Putting more \$\$ in your pocket when selling weaners. As feeders they get to weight faster, saving feed and providing a trading option to buy in other cattle to grow out. As bullocks their growth rate gets the vast majority to weight specs at milk and 2 tooth, again saving feed giving options to your enterprise.

WHY ARE GLENLEA BULLS A GREAT INVESTMENT?

They are at the top of the breed in all measurable growth traits giving you genetic \$\$ gains, are selected for natural doability over generations, and have some of the

leading maternal genetics in the breed to add real \$\$ value to your cow's production for years into the future. All measured objectively through BREEDPLAN EBVs

WHAT THE SERVICE/GUARANTEE AFTER I BUY MY GLENLEA BULLS?

We offer a simple guarantee, if you have any issues with your Glenlea bull we will send you a replacement and pay the freight! We produce over 300 bulls a year, selling at our sales and in the paddock. Our bulls getting our clients cows in calf is our no.1 priority. We deliver free to all major centres in QLD from our bull base at Condamine.

WHAT IS THE FUTURE FOR GLENLEA?

We are in final stages of developing a program to purchase back progeny from our clients to grow out and supply a branded beef program, in near future we will be able to offer you market premiums with your agent for your Glenlea sired progeny!

HOW CAN GLENLEA GENETICS ADD VALUE TO MY CALVES?

Added weight gain through performance recorded genetics, added genetic value to your retained heifers, giving lifetime returns and in near future market premiums through our progeny buyback program.

Regards,

Roderick Binny

GLENLEA BEEF

WINTON BULL SALE

12noon on Friday the 19th of July 2024

Sale to be held at Winton Saleyards, QLD and via AuctionsPlus

LUNCH AND REFRESHMENTS

We extend an invitation for anyone to come along and inspect our bulls and enjoy lunch and refreshments on us, provided by Elders Winton and Glenlea Beef.

38 Charolais Bulls on offer

36 Polled Bulls including 20 Red Charolais Bulls

INSPECTIONS OF BULLS

Available from Wednesday 17th July after midday at Winton Saleyards.
Bulls will be penned from 10am on sale day.

VIDEOS OF ALL BULLS

Will be available on AuctionsPlus from the 15th of July 2024.

CONTACTS:

STUD PRINCIPAL Roderick Binny

Phone 0409 911 791

Email glenleabeef@gmail.com

Mavryn Remfrey, Elders Winton - P 0437 176 667

Micheal Smith, Elders Stud Stock - P 0428 541 711

Scott Taylor, GDL Winton - P 0447 654 116

Mark Duthie, GDL Stud Stock - P 0448 016 950

WWW.GLENLEABEEF.COM.AU

BULL HEALTH AND FERTILITY

All bulls have been vaccinated for 3 germ blood, 3 day, botulism and 7 in 1. Bulls have all been semen tested, both for motility and morphology.

SUPPLEMENTARY SHEET

Available from Monday 15th July with updated information such as weights and carcass scans and semen tests.

GUARANTEE

All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

INSURANCE

We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

AGENT REBATE

A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

REFRESHMENTS

A complimentary lunch and drinks will be provided on sale day by a local service club on behalf of Glenlea Beef, so even if you don't require a bull this year come along, inspect the bulls and enjoy lunch on us!

PHONE BIDDING

Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

TRANSPORT

Delivery will be coordinated by Scott Taylor of GDL Winton.

BULL PROGENY AND TARGET MARKETS

I personally (Rod Binny) make a number of suggestions on individual lots regarding target markets for progeny. Many bulls will fit all markets for progeny as plans change with seasonal and market conditions.

When making these suggestions I take into account physical body type or Phenotype, maturity pattern and doing ability, along with pedigree and EBVs.

We have bred many of these bloodlines for generations and so know how they breed. These suggestions are just another assistance for you to assess the bulls in a sale environment, in a very short space of time, while we have watched them grow and develop over their life to date from birth to sale day.

Having said that, many factors effect breeding outcomes - seasonal conditions from birth to weaning, your cow herd breed make up, management and type of country your cattle run on.

ACCURACY OF CATALOGUE

Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

Australian Charolais breeders have embraced performance recording as other countries have reduced their efforts, I have seen this first hand in north America. Our data now is more accurate and detailed, making looking overseas less likely to add genetics that take your herd forward in genetic development than using **Australian evolved genetics that are the best in the world for our environments and markets** with large amounts of individual data to help us as seedstock producers, identify positive influences.

Glenlea Beef is now a large seedstock enterprise, totalling 1000 Charolais females. This includes the purchase of the Fairfield herd in 2021. We have been using **Australian bred sires** to continue the evolution of the herd over the last 10 or so years as Australian bred sires are the best adapted to our country and markets. The genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and that meet our criteria and with the heart being a number of Glenlea cow families that have origins going back over 40 years, with descendants not only directly in our herd but many studs throughout the country.

Our genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. We have a degree of type variation, which is necessary with our range of markets and geographic footprint, from higher growth and yield types for northern markets over bos indicus cows to more moderate, early maturing types

that suit more southern markets, but all assessed through the same process for all economic traits. This will be evident through the catalogue and comments, and EBVs on individual lots will highlight this.

Our breeding strategy is to produce powerful performance cattle in a medium to moderate frame score with a complete carcass. By that we mean above average yield, EMA, fat cover and IMF%. Measuring birthweights to be able to assist our bull clients to make the best selections for their operation and maintaining calving ease through BW and early gestation length.

Maternal strength focus on fertility, milking ability with great udders and moderate sized teats for longevity. While we are primary a terminal breed, in northern markets especially, Charolais x heifers are retained in there 1000's, so as seedstock producers we must always have our customers and in turn their customers in the front of mind in our breeding decisions, as those decisions ripple down the supply chain and leave big impacts, both positive and negative.

Polled genetics have progress in our breed to match horned bloodlines for every economic trait. Our herd still has a number of horned females and these are joined to homozygous polled sires. 98% of our calves born in the last 5 years are polled, many homozygous, and all testing will be available in catalogue or supplementary sheet.

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

BREEDPLAN is a genetic evaluation tool now over 30 years old and proven across many breeds and countries. We no longer print a detailed general explanation in our catalogues for bull sales or female sales as that information is available at the touch of your phone screen or click of your mouse! We are happy to explain any of the finer points of EBVs as they relate to the Charolais breed and specifically to our cattle, just call and ask! In the comments of each lot, you will see our summary of the EBVs printed for that lot.

Customer Service is at the heart of what we do, we spend much of our time travelling to clients both commercial and stud to help with a full range of services. We provide many services to all our clients from the most basic to full stud breeding and marketing support. Your success is our success. We are here to assist and work with you and your agents to help you achieve the highest possible price for your Glenlea sired stock.

For more information about Glenlea Beef, please contact Stud Principal Roderick Binny on 0409 911 791.

Lindsay Hindle and Roderick Binny at Winton Bull Sale 2021. With the purchase of the Fairfield herd in late 2021, the Hindle's Fairfield Herd is now part of Glenlea Beef.

Our top priced bull at our Roma 2022 Sale Glenlea Louis R305E (P) Lot 4 Sold for \$32,000

Top priced bull at Winton 2023, Lot 23 Glenlea JR S6 (PP) R/F. Sold to Willsdown Pastoral, Boulia for \$11,500. Pictured are Scott Taylor and Roderick Binny.

EBV	+1.5	+20	+39	+52	+62	+9	+1.5	+2.5	+1.4	+0.7

COMMENTS: Class sire, so thick and soft, naturally easy doing - photo doesn't do his natural thickness justice. Double polled, good bone, very square and correct in his structure. Dam is a champion cow with excellent fertility producing four outstanding progeny at under 6 years of age. Her cow family is one of Australia's most notable, her sire is a bull with exceptional overall thickness combined with easy finishing and very high IMF%. Maternal sister to this bull's dam was the highest priced Charolais female in Australia at our 2021 Female Fale, selling for \$26,500. Sire is a performance champion, being in top 1% of the breed for all growth EBVs and top 5% or better for 10 traits in total. Triumph's EBVs have moderate BW with top 5% all growth, top 10% EMA, fat cover, IMF%, carcass weight with above average maternal traits. **Progeny will suit all markets.**

EBV	+1.8	+21	+43	+62	+73	+9	+1.9	+2.4	+1.1	+0.4

COMMENTS: Ultra gentle temperament, outstanding performance data, in an easy doing, early maturing body type. His dam is one of our leading females, having produced three high selling bulls and a daughter that was selected as a foundation female in a new stud herd. Her current heifer will be retained in the herd. Moderate BW with top 5% or better growth, top 10% EMA, all positive carcass traits, with above average maternal data. **Progeny suit all markets.**

Acc	68%	61%	59%	60%	52%	44%	59%	41%	48%	40%

COMMENTS: A sire that was used in the Spring 2023 as a single sire joining a mob of cows to produce progeny for competition, both feedlot trials and carcass competitions. His amazing combination of growth, finish and breed leading IMF% with moderate BW make him **an easy pick to produce grassfed bullocks with the versatility to sell his progeny at any age.** EBVs top 5% all growth, top 10% EMA and fat cover and top 1% IMF! His sire is one of our most valued, injecting breed leading carcass traits and extreme softness, while still having top 5% of the breed growth, his dam has one of the best sets of performance data in our herd and is a leading donor.

Acc	72%	69%	68%	68%	61%	55%	72%	50%	56%	49%

COMMENTS: The second of three sires used in our breeding program in Spring 2023. This bull was used over stud heifers and selected cows for his combination of low BW and explosive growth, we are sure you will be amazed at the size and weight of this bull. His sire is a leading calving ease and low BW bull in the breed, and he was his dam's first calf, the pick of the 2018 heifers by Fairfield Lone Ranger. He is proof you can have low BW and top of the breed growth. **Suitable for heifers. Progeny will finish at any age off grass.**

Acc	64%	62%	62%	61%	52%	43%	72%	47%	51%	46%

COMMENTS: Another powerful sire, as with the previous lot, used in a mob of stud heifers for his combination of low BW, calving ease, carcass traits, extra milk EBV and docility. Sire is one of our most consistent breeding bulls with sons toping both our 2023 Clermont and Roma sales. He was his dam's first calf and she is an outstanding easy doing young cow. **Suitable for heifers. Progeny will suit all markets and heifers will be high value additions to your herd.**

EBV	+1.7	+13	+32	+44	+48	+10	+0.7	+1.7	+1.1	+0.6

COMMENTS: Early maturity carcass and finish the way we aim to breed them, T130 features an almost tropical skin, no problems getting his progeny on the boat if that's the best market when selling progeny. EBVs moderate BW with 11 traits above breed average and including high IMF%. **His progeny will suit all markets.**

COMMENTS: The youngest bull in the sale (19 months) apart from the six yearlings. Excellent growth and early maturity, high yielding carcass **ideal for producing weaners out of Brahman x cows**. Sired by the 2018 BEEF and Brisbane Royal Champion Monopoly. His dam is still producing great progeny at 12 years old. EBVs moderate BW, with above breed average growth and all positive carcass traits.
