What is New?

***New Virtual Internship Projects** - As of 2021, all courses benefit from the Virtual Internship Career Simulation approach. All courses have a key portfolio-building project delivered as an interactive, immersive career simulation where the learner lives a new hire's life. They become the hero in their own career adventure.*

***New Career Finance Prep** - As of 2021, all courses have an optional career and personal finance project. If class time allows, you can assign your students to engage in this short mini-course and budgeting project.*

***New Embedded Certifications** - Teachers requested a more seamless way of helping their students earn the career-building certifications. As of 2021, your students complete optional International Industry-Recognized Certification requirements as they flow through the course.*

Key Features
• **Legendary Teacher Support**
• **Free Creative and Development Tools**
• **Stackable - 3rd Party Industry-Recognized Certifications (IIRC)**
• **Web-Based - nothing to install on the student device**
• **PC, Mac, Chrome Book, iPad supported for most courses**
• **Robust project based learning, media-rich, and standards-based**
• **Budget Friendly**
