

## COSHH Assessment Jade Block (L20)

If you are unsure how to read a CoSHH assessment, please contact your local SHEQ Advisor.

**Division:** Pest Control Partnership & All Business Units

**Site / Location:** As Required

**Supplier details:** LODI UK, Pensnett Trading Estate 3rd Avenue, West Midlands, DY6 7FD Kingswinford United Kingdom

**Manufacturer details:** LODI UK, Pensnett Trading Estate 3rd Avenue, West Midlands, DY6 7FD Kingswinford United Kingdom

**Tel:** [01384 404242](tel:01384404242)

**Competent person responsible for the safety data sheet:** [matt@lodi-uk.com](mailto:matt@lodi-uk.com)

**Emergency telephone number:** 0344 892 0111

NPIS (National Poison Centre) - Birmingham Unit

[To be called by medical staff or physicians]

City Hospital, Birmingham, B18 7QH, UK

Tel: 0344 892 0111

**Name of substance and any supplier reference numbers:**

Jade Block – Ready to use compressed block

**Process description:**

**Application rate:**

**Mice:** Low infestation – 20-30g bait in bait points every 5 meters. High infestation – 20-30g bait in bait points every 2 meters.

**Rats:** Low infestation – 60-100g bait in bait points every 10 meters. High infestation – 60-100g bait in bait points every 5 meters.

**In Burrows:** 60-100g per burrow.

**In Sewer:** 200-300g of bait every 30-5- meters. High infestations – 300g per manhole. Low infestation 200g per manhole.

Regularly check bait consumption and replace consumed or spoilt bait until consumption has stopped.

Repeat treatment in situations where there is evidence of new infestation. Place baits only in sewer system which are connected to the sewage treatment plant.
