

Negro League Owners

The following list identifies individuals who owned a Negro League team or high level black baseball team. It is important to note that in some cases the years listed may only be an approximation. Some individuals may have managed the team or been an officer for the team during the period listed, but at one time during the years listed they did actually own the team. In addition transfer of ownership of a team was not always well documented. This is especially true in the early years of black baseball.

This list is no way to be considered complete. As research continues new names will be added to the list.
