About Company

AMP2 LLC

Since our inception, AMP2 has been dedicated to delivering unparalleled customer service at competitive pricing. What truly sets us apart is our cutting-edge aviation division, enabling us to rapidly dispatch high-quality equipment and skilled service technicians to any location with unmatched speed and efficiency.

Our commitment doesn't stop at delivery. Each deployment comes with a comprehensive PMI (Preventive Maintenance Inspection) service plan and the support of highly skilled on-site service technicians. This ensures that our clients receive not only the best equipment but also the expertise needed to keep operations running seamlessly.

At AMP2, we don't just meet expectations—we exceed them, ensuring reliability and excellence every step of the way.

Meet Our Team

We're here to ensure your oil field operations run smoothly, efficiently, and without interruptions. Contact the right team member for your specific needs:

DAVEY WILLIAMS

TECH ON SITE

903.840.8520

DAVEY@AMP2LLC.COM

When to Call:

For immediate equipment support, troubleshooting, or on-site maintenance.

What They Do:

Our technicians are industry experts trained to handle the toughest field conditions. From routine maintenance to emergency repairs, they ensure that your equipment runs smoothly to avoid costly downtime. If you encounter any equipment issues in the field, contact the on-site technician for fast, effective solutions.

Meet Our Team

We're here to ensure your oil field operations run smoothly, efficiently, and without interruptions. Contact the right team member for your specific needs:

RYAN O'DONNELL

DIRECTOR OF OPERATIONS

305.710.8310

RYAN@AMP2LLC.COM

When to Call:

For overarching project planning, escalated concerns, or resource allocation.

What They Do:

The Director of Operations provides high-level oversight and ensures the successful integration of all project components. From resource management to strategic decision-making, they guarantee that your project benefits from the full spectrum of our company's capabilities. For comprehensive planning or complex challenges, the Director of Operations is here to help.

TYLER ECKENRODE

SENIOR OPERATIONS MANAGER

689.303.8222

TYLER@AMP2LLC.COM

When to Call:

For project updates, operational coordination, or logistical planning.

What They Do:

The Senior Operations Manager ensures every detail of your project is executed flawlessly. They oversee the timely delivery of equipment, ensure safety compliance, and coordinate across departments to meet your deadlines. If you have questions about project execution or logistics, they're your go-to resource.

Key Equipment Offerings

Industrial Generators 25kW-2000kW

Powering rigs, camps and critical operations

Light Towers

Ensuring visibility and safety of 24/7 operations

Indirect Fire Heaters 7000 BTU

Maintaining optimal temperatures in extreme conditions

HVAC Package Units 1 ton-80 ton

Regulating temperatures in storage and worker environments

Chillers 50 ton-400 ton

Cool storage tanks and control rooms

Power Distribution Units (PDUs)

Flexible configurations to handle heavy power loads

Vector Misting Fans

Portable & capable of operating extreme field conditions

DIFFERENTIATORS

We are a full-service company from set up to strike preventative maintenance driven which results in fewer breakdowns.

1. Rapid Delivery Across the U.S. and Caribbean

- With our dedicated aviation department and fleet of aircraft, we can deliver critical equipment to your site within three hours, ensuring minimal downtime.

2. Industry-Leading On-Site Technicians

- Our technicians are the best in the business, providing expert maintenance and repairs on-site to keep your operations running smoothly.

3. Comprehensive Service Offering

- From generators and HVAC to chillers, misting fans, and indirect fire heaters, we provide a complete range of equipment tailored to the demanding needs of the oil and gas industry.

4. Customized Solutions

- We offer site evaluations, permit assistance, and expert equipment recommendations to ensure your project is set up for success from the start.

5. Flexible and Competitive Pricing

- We offer volume-based discounts and a commitment to beating competitor pricing when an invoice is provided.

6. 24/7 Rapid Response Services

- Our team is available around the clock to handle emergencies, ensuring you get the support you need, when you need it.

7. Expertise in Oil Field Operations

- We understand the unique challenges of oil field projects and provide tailored solutions to ensure efficiency, safety, and cost-effectiveness.

8. Safety and Compliance Focus

- We ensure all equipment and operations meet the highest safety and regulatory standards in the industry.
