In business for more than 30 years

Worthouse is a privately owned company with over 30 years of successful experience in the fabrication of steel, metal roofing systems, and construction materials. With four production plants boasting vast capacities backed by advanced R&D department delivering the most innovative solutions in the industry, we stand as a leading manufacturer of modular metal roofing.

Our North American headquarters and distribution center in Waynesboro, GA, is equipped with over 600,000 sq ft of industrial buildings. At Worthouse, we are committed to delivering exceptional performance, elegant design and reliable protection for generations.

Our products, trusted by roofing professionals and homeowners alike, offer unmatched durability and aesthetic appeal. Backed by reliable technical support and exceptional client service, Worthouse stands as a symbol of quality and excellence in the industry.

Worthouse products are present in 41 countries around the world. North America headquarters and distribution center are located in Waynesboro, GA.

Proud Members of:

What makes us unique?

Competitive Offer

Worthouse is a leading manufacturer of steel fabrication and cutting-edge metal roofing solutions, offering premium modular panels, gutter systems, and soffits. Our products provide unmatched durability, elegance, and ease of installation, setting us apart in the market.

Cutting Edge Technology & Quality

Engineered with meticulous attention to detail, our modular metal roofing panels boast unparalleled protection against extreme elements. We prioritize quality, with raw materials sourced exclusively from premier steel mills in Germany and Sweden, and invest in unique, patented solutions for effective and simplified installation.

Successful Heritage & People Power

With three decades of successful experience in Europe and a leading position in steel fabrication, Worthouse operates from four advanced production plants. Our expertly trained and seasoned employees provide unmatched technical and professional support, making us industry leaders in comprehensive solutions from steel profiles and pipes to solar panels and PVC elements.

The Worthouse Complete Innovative System

Every part of our metal roofing system was meticulously designed to work together to provide the highest level of protection for your home against extreme elements. This modular systems revolutionary design effectively simplifies the install process and creates a unique and stunning profile that is fast and cost effective.

Cutting Edge Ventilation Design

Our unique roofing system design is created to allow proper ventilation to your entire roof. This ventilation will make your home more comfortable and reduce your need for air conditioning, which can help lower your energy costs.

Solar Panel Ready

Our system is compatible with solar panels and is designed to ensure the integrity of your roof and maintain your superior warranty. Install your solar panels with peace of mind knowing that no harm will come to your new advanced roofing system.

Our metal roofing products
are made from **highest quality steel**

26 GAUGE, G90

MODULAR METAL ROOFING TILES

Steel is durable

Steel roofing products have nearly twice the lifespan of conventional roofing products

Steel is eco-friendly

Steel can be recycled endlessly, which makes it one of the most environmentally friendly materials

Steel roof helps outlast insurability

Even up to 25% in possible home owner insurance premium savings

PROTECTIVE SHIELD

Noble Matte

Covered with the Noble Matte coating, it effectively protects against long-term wear and provides maximum corrosion resistance in any conceivable application.

Stable and constant

The Noble Matte coating not only protects against discoloration, but also functions as an all weather shield.

It says no to re-roofing

Forget about re-roofing. All of our metal roofing panels will serve you reliably for generations. The steel and protective shield form a very powerful duo of protection.

Discover key advantages of Worthouse® PVC soffits

- Made of **highest quality two-layer PVC**, where one layer forms the core, providing **rigidity and mechanical durability**, while the other ensures **color durability**
— we are **the only manufacturer to use two layers**
- **Exceptional thickness**, unmatched on the market
(**up to 15% thicker** than competitive products)
- **Unique ventilation openings** that allow **proper ventilation** but in the same time **protect against insects** infiltrating under the roof covering
- **Excellent insulation properties** that safeguard the building against heat loss
- **Reliable protection for the roof** against strong winds and moisture
- **Safeguards the roof** from rodents, insects, and birds from getting underneath

FULFILL YOUR DREAMS OF A PERFECT NO MAINTENANCE FENCE
