The words of the Pope:

Meditating on the mystery of the Resurrection, we find an answer to our thirst for meaning. Faced with our fragile humanity, the Paschal proclamation becomes care and healing, nourishing hope in the face of the frightening challenges that life presents us with every day on a personal and global level. In the perspective of Easter, the Via Crucis, the Way of the Cross, is transfigured into the Via Lucis, the Way of Light. We need to savour and meditate on the joy after the pain, to retrace in the new light all the stages that preceded the Resurrection. Easter does not eliminate the cross, but defeats it in the miraculous duel that changed our human history. Even our time, marked by so many crosses, invokes the dawn of Paschal hope. Christ's Resurrection is not an idea, a theory, but the Event that is the foundation of faith. He, the Risen One, through the Holy Spirit, continues to remind us of this, so that we can be His witnesses even where human history does not see light on the horizon. Paschal hope does not disappoint. To believe truly in the Pasch through our daily journey means revolutionizing our lives, being transformed in order to transform the world with the gentle and courageous power of Christian hope.
