Song: Fireflies by Owl City

Narrator 1: This week, we learned about creation, what creativity is, and how we are creative in the eyes of God.

Narrator 2: But none of our creativity would be possible without God's creation. Here is an example of what that creation looked like.

TABLEAUX 1: A long long time ago, before there were animals, or plants, or even people, there was only God. Nothing else was there- no stars, no moon, no sky, not even the Earth. But, God had a plan. He wanted to make a world that was full of beauty and life! So, he got started.

TABLEAUX 2: On the first day, God said "Let there be light!" and just like that, light appeared! The light filled the darkness, which brought God joy. He smiled, and called the light "day" and the darkness night.

TABLEAUX 3: On the second day, God looked down below, and saw that water was everywhere. Then, He said "Let there be a space between the waters," and just like that, a sky appeared! It stretched high above the oceans, and God said this was good.

TABLEAUX 4: On the third day, God said "let the water come together so dry ground can appear," and sure enough, it appeared! God called the dry ground land and the water the sea. But he wasn't done- God made plants grow from all over the land soft, green grass, beautiful trees and colourful flowers. God said that this was good.

TABLEAUX 5: On the fourth day, God said "let there be light in the sky!" So, he made the sun shine in the daytime, and the moon glow at night, alongside the twinkling stars that filled the night sky. These lights helped mark days, and years, and seasons.

TABLEAUX 6: On the fifth day, God filled the seas with fish- some were large, some were small, and some were long, all unique in their different ways. He also made birds fly through the sky, chirping and soaring through it all.

TABLEAUX 7: On the sixth day, God made all of the animals- tigers, bears, rhinos and all kinds in between. Then, he said "Let us make people in our image," and so he did! The people were told to take care of the earth and all of the living things within it.

TABLEAUX 8: And finally, on the seventh day, God looked at what he created, and said it was good. Very good. So he made it special- a day of rest. And just like God, we can be creative! And when we rest, because rejuvenated to create more, while taking care of the world and its creatures.
