

# SO CREATIVE

By: Orange Kids Music

To get it done, don't gotta look too far  
Just dig in deep and shine like a star  
Let's show the world who we can be  
By using our creativity  
Come on

Sometimes it's easy to feel like I've  
given all I got  
Is there anything more?  
I get down, get stuck  
Boxed in, locked up  
I gotta get movin', movin'  
(Gotta get movin', movin')  
And all I see, right in front of me  
Are endless possibilities

Birds flying high, and the planets in the  
sky  
So creative  
So innovative  
How the river flows, and how the grass  
grows  
So creative  
So innovative

Sometimes it's easy to feel like I've  
given all I got  
Is there anything more?  
I get down, get stuck  
Boxed in, locked up  
I gotta get movin', movin'  
(Gotta get movin', movin')  
And all I see, right in front of me  
Are endless possibilities

Birds flying high, and the planets in the  
sky  
So creative  
So innovative  
How the river flows, and how the grass  
grows  
So creative

So innovative

A tiny little seed, growing everything we  
need

So creative

So innovative

Turning sound into a song, makes me  
want to sing along

So creative

So innovative

(optional spoken rather than sung)

All these things, they show me who you  
are

I'm made by you, created for you

And I'll share you with the world

Birds flying high, and the planets in the  
sky

So creative

So innovative

How the river flows, and how the grass  
grows

So creative

So innovative

A tiny little seed, growing everything we  
need

So creative

So innovative

Turning sound into a song, makes me  
want to sing along

So creative

So innovative
