Wood Casket Guide

Casket Selection Guide

We have a wide range of Caskets to provide great value at any budget.

Casket value is based on the type of wood and the quality of the material and workmanship.

A casket, or some type of container, is required in all situations.

Burial Vaults are, in most cases, optional.

Cremation urns are selected by many families as a mean of permanent memorialization.

All caskets are manufactured by Victoriaville & Co. 🇨🇦

Outer Burial Containers / Concrete Vaults

Why choose an Outer Burial Container?

In most areas of the country, provincial or local law does not require that you purchase a container to surround the casket in the grave. However, many cemeteries as part of their by-laws may require you to have such a container. Either a grave liner or burial vault will satisfy these requirements.

Operating a modern cemetery requires heavy equipment such as backhoes and tractors. A strong durable vault provides greater protection from the weight of the equipment as well as the elements of the earth.
