

BOUNARA™ HOOKAH MODEL: Premium Duo

BOUNARA™ - The art of hookah

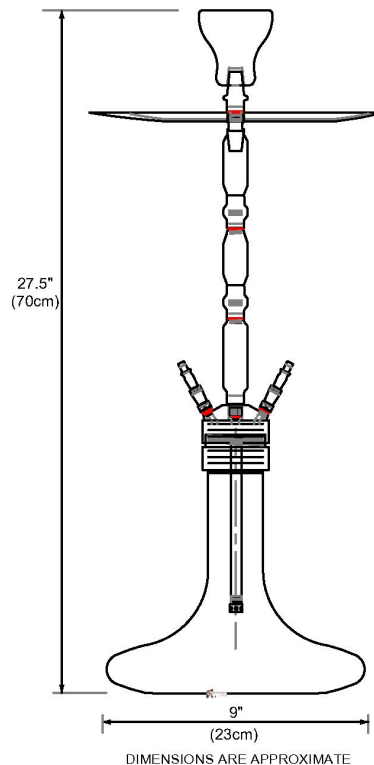

Our name BOUNARA™, which translates to "father of the flame" from Arabic, is inspired by the skilled hookah attendants in the Middle East who elevate the hookah experience to a whole new level. As hookah attendants, they are the masters of their craft, carefully tending to the hookah to ensure it burns evenly and produces thick, flavorful smoke. They are attentive to their customers' needs, constantly replenishing the charcoal, switching out the flavor of the tobacco, and making sure every puff is perfect.
