

TOOWOOMBA

Feed Commodities Officer

Mort & Co has evolved to become Australia's largest privately-owned beef cattle lot feeding, management and marketing company and a leading exporter of premium Australian Beef. With a strong growth trajectory, the business continues to pioneer the latest agricultural innovations across a broad range of complementary businesses, including fertilisers and stock feeds.

We are currently looking for a permanent full-time Feed Commodities Officer to join our Commodity team in the Toowoomba office. Reporting to the Commercial Manager, you will be responsible for all aspects of organising and arranging storage and delivery of commodities for our feed milling operations.

Functions of the role include:

- Oversee and plan bulk commodity logistics across all Mort feedlots and stockfeed sites in conjunction with site supervisors
- Manage the delivery queuing and booking process
- Monitor planned vs actual deliveries and organise silo and storage allocation
- Manage any commodity quality exceptions at site entry
- Grower engagement, production estimation, price indication, purchasing and scheduling management
- Provide general administrative support and contract administration for commodity procurement
- Complete external market monitoring, data collection and analysis

The successful applicant will have:

- Previous experience in feed commodity logistics, trading and bulk handling activities
- Solid understanding of commodity supply chains, including the process of procuring and executing feed commodities to delivery
- High degree of computer literacy, writing and documentation skills
- Strong rapport and relationship building abilities with industry participants such as commodity producers and traders
- Exemplary organisation skills, attention to detail and record-keeping skills
- Strong work ethic and initiative as well as being reliable, conscientious and self-motivated

This role is an exciting opportunity to join a well-recognised company that values integrity, quality, teamwork and relationships.
