A Newsletter From Your Partners at  
Heaven Sent Automotive  
615-595-7376

*We are excited to let you know that we will be starting up our monthly newsletters again!*

*On behalf of everyone at Heavensent Automotive, we want to thank you for being loyal customers. We value our relationship with you and the trust you have put into our services. We want to take the time and make sure you know how much we appreciate each one of you! We also wanted to say a special thanks to those of who reached out and supported us during the pandemic. These were difficult times for all of us and are looking forward to our "new normal".*

*There have been many changes in our country over the past year, but our customers and their satisfaction will always be our number ONE priority...That will not change! It is always a pleasure seeing and serving you!*

~ The HSA Team

## DO YOU KNOW?... WHAT AMERICANS DRIVE?

In celebration of July 4th, Heavensent Automotive wanted to share some patriotic fun facts about what Americans are driving...

- ★ Men drive American-made cars more than women. While 67 percent of men drive American-made cars, only 44 percent of women do.
- ★ Men and women also differ where they stand on their pick of colors red, white and blue.
- ★ In what should not come as too big of a surprise, Kentucky — The Bluegrass State and home to the Wildcats wearing that color — was one of the top areas for blue.

### States with the Highest Percentage of American-Made Cars

### Most Popular Car Colors

	Men	Women
Red:	42%	18%
White:	23%	41%
Blue:	53%	47%

### States with the Most Red, White and Blue Cars

Red: South Carolina, Colorado, Michigan  
White: Florida, California, Tennessee  
Blue: New York, Georgia, Kentucky

### States with the Lowest Percentage of American-Made Cars

California: 21%  
New York: 28%  
Massachusetts: 32%

## HOT AC REPAIR SPECIAL

**\$50 OFF**  
**AC REPAIR**  
**OF \$300 OR MORE\***

*\*Regular priced service of \$300 or more.  
Valid July 1, 2021 through July 31, 2021  
MUST BE PRESENTED AT TIME OF SERVICE*

**DON'T FLUSH YOUR  
MONEY AWAY**

**SAVE UP TO \$50  
ON YOUR  
FLUSHES IN JULY!**

**1 Flushes = \$10 OFF**  
**2 Flushes = \$20 OFF**  
**3 Flushes = \$30 OFF**  
**4 or More Flushes = \$50 OFF**

Valid July 1, 2021 through July 31, 2021; Cannot Be Combined with Any Other Offer or Discount. Must be presented at time of service.

Flushes:  
Transmission, Coolant, Brake, Power Steering,  
Differential & Fuel System Clean

**SAVE 15% ON ANY TUNE-UP  
OVER \$200!**

Valid July 1, 2021 through July 31, 2021; Cannot Be Combined with Any Other Offer or Discount. Must be presented at time of service.

## GOING ON VACATION?

### Add Pre-Trip Auto Care to Summer Road Trip Plans

With school out for the summer, many families are planning driving vacations. Adding pre-trip auto care to road trip plans lessens the chance of a roadside breakdown for all motorists and is even more important for those driving older vehicles.

According to AAA roadside data, "vehicles 10 years and older are twice as likely to be stranded at the roadside, and four times more likely to require a tow." The findings also show that the top reasons for requiring a tow are battery and electrical systems issues, engine cooling system failures and tire damage that cannot be repaired or replaced at the roadside.

"The Car Care Council urges all drivers to make sure their vehicles are road-trip ready to minimize the chance of car trouble away from home. With the average vehicle age exceeding 11.5 years and the odds of a roadside breakdown much greater for those with older vehicles, a pre-trip vehicle inspection is especially important to help ensure a stress-free journey."

**Check the BATTERY** and replace if necessary. Be sure the electrical system is charging at the correct rate; overcharging can damage a battery as quickly as undercharging. Excessive heat and overcharging shortens the life of a battery.

**Check the HVAC** (heating, ventilating & air conditioning) system as proper cooling performance is critical for interior comfort.

**Check the TIRES**, including tire pressure and tread. Uneven wear indicates a need for wheel alignment. Tires should also be checked for bulges and bald spots.

**Check all FLUIDS**, including engine oil, power steering, brake, transmission, windshield washer solvent and coolant.

**Check the WIPERS and LIGHTING** so that you can see and be seen. Check that all interior and exterior lighting is working properly and replace worn wiper blades, so you can see clearly when driving during precipitation.
