LENSES

TITANIUM REACTOR

Titanium Photochromatic lenses adjust to different light conditions and react to sunlight. Ideal for partially sunny days.

Polarized Ultra lenses increase contrast for sharper and improved vision, providing a higher contrast with antiglare properties. The copper Polarized Ultra lens filters harmful blue rays to prevent eye fatigue in both bright and low light - the perfect lens for all conditions.

Polarized lenses increase contrast for sharper and improved vision, providing a higher contrast and anti-glare properties. Ideal for high level light and especially in direct sunshine, when sun is low on the horizon.

Curved Lens Technology (CLT) offers the swimmer 180° degree peripheral vision and crystal clear clarity. Ideal for swimming in a crowd, or with others in your lane.

UV Protection - Zoggs includes UV protection as a standard feature on all goggles. As well as our standard UV360, we have introduced UV400 maximum protection which blocks 99%-100% of the sun's harmful UV rays, to ensure swimming is as safe as it is enjoyable.

Anti-Fog - Fogbuster offers extra moisture control for real clarity of vision, and a stress free swim.

Clear View (CV) Lens - Amplify light in low level conditions and reduce the sun's glare providing excellent clarity and vision.

This indicates the style has been sanctioned for use at FINA approved events.

Titanium ☁️☁️☁️☀️

Ideal for high level light, reducing glare from the sun.

TITANIUM REACTOR ☁️☁️☁️☀️☀️

Reacts to sun rays for a darker tint in brighter conditions, and clear visibility when indoor swimming.

Polarized ☁️☁️☁️☀️☀️

Polarized lenses increase contrast for sharper and improved vision, providing a higher contrast and anti-glare properties. Ideal for high level light and especially in direct sunshine, when sun is low on the horizon.

Polarized Ultra ☁️☁️☁️☀️☀️

Repels blue light to reduce glare and the reflection of the sun, for high level light and direct sunlight.

CV Lens ☁️☁️☀️

Amplify light in low level conditions and reduce the sun's glare providing excellent clarity and vision.

Smoke Tinted ☁️☁️☁️

Medium protection against the sun and bright light, great for outdoor use. A practical solution for changeable conditions and everyday training.

Colour Tinted ☁️☁️☀️

Offers medium protection against the sun and bright indoor light, creating the perfect indoor lens.

Clear ☁️☁️☁️

Ideal for low light, overcast conditions or indoors where maximum visibility is required.

FRAMES & GASKETS

ADVANCED ULTRA FIT™

Our traditional gasket has been completely re-engineered. It's made from high grade silicone for a 10% softer gasket seal, with enhanced contouring of the upper and lower rim. In combination this makes for a lighter feel and even more comfortable fit - perfect for hours in the water.

SILICONE

Creates a long-lasting personalised seal around your eyes, for a unique leak-free fit. Designed to provide even pressure distribution across your face. Silicone hypo-allergenic to avoid skin irritation and phthalate free.

SHAPED NOSE BRIDGE

Shaped nose bridge to accommodate a variety of face shapes and sizes.

SOFT SEAL™

Unique thermoplastic rubber giving a superb customised fit whilst retaining softness and watertight seal.

FOUR POINT FLEX

Ultimate frame technology, for enhanced frame flexibility offering a super comfortable fit for all faces.

WIRO FRAME

Unique bio-tech™ frame technology, a durable long lasting frame with soft silicone gaskets, offering a super comfortable fit.

HCB TECHNOLOGY

Patented HCB (Honeycomb) technology hexagonal structure reinforces the seal against pressure, whilst maintaining elasticity and softness for a lightweight, secure fit.

AIR CUSHION

Air filled gaskets, made from high quality silicone, provide a 'cushioned' seal which gives an 'almost not there' fit with significantly reduced marking around the eye.

STRAPS

SPLIT STRAP

Our split yoke straps, made using high quality silicone, are strong, durable and comfortable, featured on many of our goggles.

DOUBLE STRAP

Our double band headstraps also feature an easy adjust system, made using high quality silicone for comfort and durability.

QUICK ADJUST

Our quick adjust system is fast and secure, the easiest way to get just the right fit.

SLIDE ADJUST

Side slide adjust clip featured on entry level goggles.

EASY ADJUST

Side Central headstrap button, for quick and easy adjustment. slide adjust clip featured on entry level goggles.

PULLEY ADJUST

Pulley system exclusive to our Predator range, for a secure and even fit.

PROFILES

Low Profile

- Sits in eye socket, reducing drag
- Great for training / competitive swimmers

Standard

- Large gasket for fantastic seal
- Ideal for entry level to professional swimmers, including triathletes

Mask

- Larger frame preferable for longer periods
- Fantastic for recreational swimming, snorkelling and water sports

PREDATOR RANGE

Predator celebrates the exhilaration and freedom of swimming in its purest form; embracing the feel good factor of the water, being at one with the great outdoors or simply feeling unplugged from the daily grind.

The distinctive Predator branding, and strong design DNA is instantly recognisable in a sea of goggles. 'Predator' is worn as a badge, and often referred to by swimmers as 'my Predators' giving them credibility amongst their peers. Since the first launch in 2005, the Predator range of goggles has pushed the boundaries of what is possible when it comes to helping swimmers see more clearly and swim more easily. All Zoggs goggle innovation starts in the Predator range before being applied to the rest of the wider range.

Each and every pair of the Predator range goggles only get to the pool after they've been put through our 'concept to pool' process. We listen to swimmers feedback, using this as 'swimsight', to shape the design and evolution of the Predator range. Ultimately we test them to the extreme in real swim tests not only in the pool but also in open water.

TRAINING AIDS

EVA Kick Board Medium 465202

Black

- Durable high density construction
 - Designed for training
- Size: 43.5cm x 29.5cm handy carry case

EVA Kick Board Small 465202

Orange

- Durable high density construction
 - Designed for training
- Size: 35cm x 26.5cm

Pull Buoy 465206

Black/Orange

- Four layer contoured design for optimal buoyancy
 - Shaped for training
- Durable EVA construction
 - Size: 23cm x 8.5cm

Kick Buoy 465212

Grey

- Two-in-one combined kick board and pull buoy
- Unique design for optimum buoyancy
 - Lightweight and compact
 - Durable EVA construction
 - Size: 27.5cm x 23cm

Matrix Hand Paddles - Medium 465265

Orange

- Aquadynamically designed to improve stroke mechanics
- Scooped front-end initiates catch phase of stroke
- Added holes for increased feel of water

Matrix Hand Paddles - Large 465265

Black / Grey

- Aquadynamically designed to improve stroke mechanics
- Scooped front-end initiates catch phase of stroke
- Added holes for increased feel of water

Combo Reef Explorer Adult 465282

Blue/Clear

- Wide downward view angle
- Siliter mask skirt and snorkel mouthpiece
 - Integrated snorkel keeper
- Semi-dry top to prevent splashing water from entering the snorkel whilst snorkeling on the surface

Combo Reef Explorer Junior 465283

Blue/Clear

- Wide downward view angle
- Siliter mask skirt and snorkel mouthpiece
 - Integrated snorkel keeper
- Semi-dry top to prevent splashing water from entering the snorkel whilst snorkeling on the surface

Centre Line Snorkel 465287

Black/Orange

- Encourages focus on stroke technique without swimmer turning their head to breathe
- Hydro-dynamic Vylux & phthalate free snorkel tube
 - Adjustable rubber head bracket for secure fit
 - Includes nose clip

Ultra Blue Fins 465209

- Dual density co-moulded silicone blade training fins
- Specifically engineered for optimum propulsion,
 - performance and comfort
- Comes with a mesh carry bag
