MOST POPULAR

- Specially designed and tested Sterilume™-EX lamps provide consistent ultraviolet output over the entire life of the lamp (9000 hours) to ensure continuous purification.
- The system is simple to maintain and service allowing for easy lamp replacement.
- Built with a durable stainless steel chamber to prolong life and eliminate ultraviolet light degradation.
- The controller visually displays the remaining lamp life and will go into alarm if the lamp fails. Monitored systems are equipped with a UV sensor which provides a continuous readout of UV intensity.
- The controller has a sealed case to prevent damage from accidental water intrusion and is fully CSA and CE compliant.
