Each request permitted under this section shall be limited to the request of three (3) specific categories of official records with the intent that an Owner shall be limited to six (6) requests per calendar month i.e. two (2) requests per month with three (3) categories per request.

F. Inspection of records shall be conducted at the office where the Association records are maintained or at such other location as may be designated by the Association. Records must be available for inspection in Lee County or within forty-five (45) miles of the Association property. No records shall be removed from the location where inspected and no alterations, markings, or notations on the original records will be permitted.

G. Records shall generally be made available for inspection by the Association on or before the tenth (10TH) working day after receipt of a written request. This time frame may be extended upon agreement of the Owner for good cause. Additionally, this time frame shall be extended in the event the records requested are voluminous and unreasonable to fulfill in the ten-day time frame. The Association shall use its best effort to make the requested records available within the 10th working day after receipt of request. Failure to so will create a rebuttable presumption that the Association has violated the provisions of this Resolution. The Association may rebut the presumption by obtaining an opinion from legal counsel that the Association has, under the circumstances, attempted to address the Owner's records inspection request promptly and in good faith. The Association shall notify the Owner by telephone or in writing (including e-mail) that the records are available and the time, date, and location of inspection if other than the Association office. Inspection shall be made only during the normal business hours of the location of inspection if other than the Association office. Working day shall mean Monday through Friday exclusive of federal and state holidays in the office of the Association or office where records are made available. Normal business hours shall be the hour the Association office

is customarily open, or the hours the location inspected are customarily open. If there are no customary hours of operation, then 9:00 a.m. to 12:00 p.m. and 1:00 p.m. to 5:00 p.m. on a working day shall be the designated business hours. No Owners shall be entitled to inspect records for more than eight (8) hours cumulatively in any calendar month. At the request of the Association or the Owner, inspections may be broken into segments provided that three (3) inspection visits per calendar month shall be the maximum number of sessions in a calendar month, and eight (8) hours maximum cumulatively.

H. If after inspection an Owner desires to have a copy of a record, the Owner shall designate in a separate writing, which record, or portion thereof, for which copy is desired, or in the alternative, shall designate such record by use of clip or tab on each page(s) desired, no more than one (1) copy of each record requested shall be provided. If the location of record inspection has a copy machine capable of making copies of the records designated, and the Owner has requested 25 or less pages to be copied, then copies of the records shall be available contemporaneously with the inspection. If the records to be copied exceed 25 pages, or there is no copy machine at the location of inspection, the Association may send the records out for copying by an outside source, such as a commercial copying source or make the copied records available for later pick up. If copied at the location where records are kept, copies of more than 25 pages shall be made available for pick up by 5:00 pm within 3 working days from the date of inspection, with the day of inspection not counting in the calculation of deadline. Copies made by an outside source shall be available as copying service can pick up and return the records to the inspection location or where records are stored. Copies will be available for Owner pick up at the place where records are kept or produced and the Owner may pick up at that location. The Association will have no obligation to mail or deliver copies to any Owner. The Association shall allow an Owner to use a portable device, including smartphone, tablet, scanner or any other device capable of scanning or taking photographs, to make an electronic copy of the official records in lieu of making an electronic copy of the official records by the Association. The Association will not charge an Owner for the use of portable device. An Owner shall pay the reasonable expense of copying. In the event copies are made by the Association the cost shall be twenty-five cents (\$.25) per page. If copies are made by an outside vendors, actual costs shall be charged to the Owner. Payment in advance shall be required. Copies will not be made unless and until payment is received.

I. If records are kept on computer format the Association may print such records to paper. The Association shall not be obligated to allow Owners to access the Association computer system, but may allow for certain inspections of computer records. If an Owner is allowed by the Association to search or inspect records through a computer system supplied by the Association or the office in which records access is being conducted, the person inspecting the records shall not e-mail any inspected records to any other computer, person, or e-mail account nor otherwise transmit or manipulate the data being reviewed during the inspection of records by review on computer format.

J. The Association may comply with its obligation to make records available for inspection by providing them to the Owner by electronic mail, the internet, or making them available in a computerized format readable with customary programs used in computers of consumers. If however, the Owner provides the Association with written notice that they do not have access to a computer, the Association will supply the records in paper format. An Owner and the Owners authorized representative shall be considered one person. If inspection is requested by any person other than the recorded Owner of a unit, the request shall not be recognized by the Association until the Owner of record designates such person in writing as their authorized representative, or unless such person is an Attorney at Law practicing in the State of Florida. All persons inspecting records or requesting records must conduct themselves in a courteous non-threatening manner and shall not interfere with the normal operation of the Association office and the duties

of the personnel, nor the office where records are inspected or copied. The Association office, or office of inspection may assign a staff person to assist in the inspection and all requests for further assistance and copying during inspection shall be directed to that staff person.

K. Any violation of these Rules for Inspection may result in the immediate suspension of the inspection until the violator agrees in writing to comply. Any requests for inspection not complying with this Rule will not be honored, and in such case the Association shall mail, or hand deliver a written response to the Owner requesting inspection indicating how the request fails to comply with the Rules. The Association through the Board of Directors will take appropriate legal action available against any Owner that fails to comply with these Rules of inspection, including but not limited to the levy of fines and/or suspension of use rights subject to the requirements of law. Nothing in these Rules shall be construed as a limitation or restriction upon any of the Association's rights or remedies, or act as an election of remedies. All right and remedies of the Association shall be cumulative. The President of the Association, or the Manager, as directed by the President, shall have the authority to interpret and implement the provisions of these Rules, and make decisions and judgments arising without the need for Board approval, on a case by case basis. As with other Rules as written these Rules will be effective upon Board approval.
