

Ministry Update

Russian Radio Bible Institute Q1 2025

Russian Radio Bible Institute, your faithful partnership continues to illuminate paths of hope for Russian-speaking youth in these challenging times. From remote villages to bustling urban centers, young Russian speakers around the world face unprecedented difficulties and questions about their future. Yet through your steadfast support, the light of God's Word reaches these communities with remarkable impact.

The Christmas season provided exceptional opportunities to connect with young hearts in the most difficult circumstances. As we partnered with local churches for seasonal programs, we witnessed extraordinary moments of spiritual awakening. Your generosity enabled these meaningful outreach initiatives – as the following photos so beautifully illustrate.

Holiday outreach changes lives!

Through your continued support, the Christmas season became a gateway for young people to encounter God's love, perhaps for the very first time. These glimpses into our recent celebrations demonstrate how your partnership transforms holiday events into eternal impact.

A surprise Christmas gift and the *Bible App for Kids Book of Hope* made these displaced children so happy! They even asked for more copies of the *Book of Hope* to take home to friends and family. Most of these children had been forced to leave everything behind when their families fled the ongoing conflict – to receive a new book of their own is a wonderful blessing.

The *Bible App for Kids* is one of the very best ways you're reaching out to refugee and displaced children as well as children in the conflict zones, because children like these increasingly turn to tablets and phones to connect with one another and the outside world.

Our partners in Ukraine are near the frontline and under constant fire. All families with the means to evacuate have done so – but those who cannot are visited by church teams with humanitarian aid and Christmas gifts for children. Through your generosity the teams are able to meet the young people where they are and deliver God's Word.

The local church organized a game day Christmas event for children and youth. The celebration included a distribution of the holiday-edition *Book of Hope* called *Promised*.

Partner churches provide humanitarian aid for refugees in Ukraine. Alongside the food and toiletries, teams distribute Bibles and various age-appropriate editions of the *Book of Hope* for children and youth. This is a distribution of *Promised*, special Christmas edition.

Join Us in Prayer

- Pray for peace! The lives of Russian and Ukrainian children and youth have been upended by the brutal conflict. They desperately need security, safety, and peace.
- Please pray for our partner churches and ministries in the conflict zone and those ministering to displaced children and families in evacuation zones as well. They need strength, protection, and funding to keep reaching out.
- Pray for boys and girls who have been traumatized by war and displacement. We are sharing God's healing love and grace in His Word as quickly as we can, but the scars run deep. Your prayers make a difference.
