22. Please fully describe your vision for the ultimate pro-life policy / legislation that you would author or sponsor for Georgia.

Pro-life means protecting life and supporting it. I would champion legislation in Georgia that pairs strong protections for unborn children with real support for mothers and families. I would expand care to include mental health, childcare, adoption, and foster care because choosing life should come with the support to sustain it.

23. How would you propose moving these policies through the legislature?

**Per spacing limitations, answer is on the bottom of page 7

24. What role should the legislature play in enforcing or ensuring enforcement of Georgia’s current and future pro-life laws?

Lawmakers should write the framework, the rules and what protections are in place.

Ensure the agencies in charge are doing their jobs, control the funding and resources

needed so laws can be enforced. Lastly update the laws to make them clear and strong, and step in if it isnt while also respecting the separation of powers.

ISSUE: EUTHANASIA / ASSISTED SUICIDE

25. Would you vote for a law preventing discriminatory denial of medical treatment necessary to prevent the death of a patient which is against the will of the patient or the patient’s representative of the elderly, disabled, or terminally ill?

YES X NO _____

23. I would draft a legally sound bill in line with Dobbs v. Jackson Women Health Org by working with legislative counsel to clearly define protections for unborn life & mothers. I would build early support through key colleagues, co-sponsors, then engage with committee members and move it strategically through the committee with strong testimony from medical professionals, legal experts, community advocates, address concerns and make responsive revisions. I would communicate clearly with the public and grassroots groups to build support and reduce misinformation. Coordinate with house & senate leadership to ensure the bill is prioritized & secure a floor vote, and then be prepared to defend the bill while accepting reasonable amendments without compromising its intent. Finally, I would work with the Governor’s office to ensure the bill is signed and that state agencies are prepared to effectively implement it.
