Proposer Questions & Staff Responses:

1. **Does ETCOG have a preference regarding whether monitoring equipment is purchased or rented?**

   **Response:** All Contractors are required to adhere to TxGMS @ https://comptroller.texas.gov/purchasing/grant-management/ and references to equipment are on pages 26/27 and page 123. However, if Contractor intends to propose rental of equipment, Contractor should include reasonableness of costs of renting compared to the costs of purchasing and ownership of liability for rental.

2. **If this equipment is purchased, will this be purchased directly by ETCOG, or should proposers include the equipment purchase in our proposed estimate?**

   **Response:** It is expected Contractors will provide all that is necessary to complete the work. Proposers are to include any necessary equipment purchases in their proposed estimate.

3. **Does ETCOG intend to award one contract for both the emissions inventory and the ambient air monitoring, or will consider awarding a contract for each scope?**

   **Response:** We intend to award one contract.

4. **Can ETCOG provide a copy of the statement of work provided in the TCEQ Rider 7 grant application?**

   **Response:** The requested information is not shared during an active RFP process.

**CLOSING REMINDER:**

We thank all proposers who submitted questions for staff responses and to serve as a friendly reminder, RFP Proposals are due:

RFP Submissions Due/BID Open  Tuesday, January 18, 2022 (11:00 AM CST)
