

1600 series

# 1600 series

## FORM, FUNCTION, & VALUE

Smart, innovative design that meets budget boundaries without compromising personal style or construction quality.

# FRAMELESS ADVANTAGE

Unlike traditional face frame cabinets, frameless cabinets combine the clean look of modern, full-overlay, flush-fitting doors and drawers. The unobstructed, full-access interiors create more storage and an organized space, while providing superior strength and trendsetting style.

## STRONG

5/8-in cabinet box and solid full-top construction provide superior strength, structural precision, and additional support for solid surface countertops.

## FULL-ACCESS

Greater accessibility, unobstructed by a frame, creates more usable space in the same box size and provides easy access to your items inside.

## MORE SPACE

Wider, taller drawers with a 75-lb load capacity feature greater interior storage, more clearance and the luxury touch of full-extension soft-close hardware.

## CONSTRUCTION

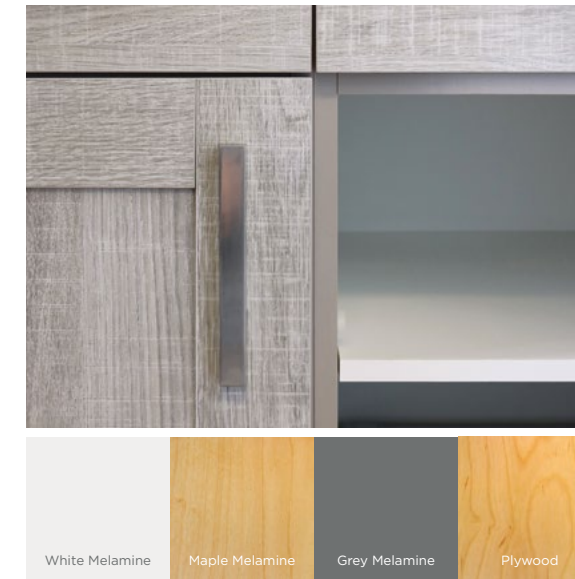

5/8-in industrial-grade particleboard construction with solid full-top, 1/4-in MDF captured back panel, 5/8-in hanging rail and concealed dowel joinery.

...

OPTIONAL UPGRADE:  
5/8-in plywood for box parts & interiors.

# CONSTRUCTION DETAILS

Bellmont's 1600 Series offers more than just space and style. Every cabinet we build is put through our innovative manufacturing process to ensure structural precision and durability last well beyond the first impression.

## INTERIOR

White melamine, bonded to 5/8-in industrial-grade particleboard; solid color PVC banding on all case edges; and real wood veneer banding on finished sides.

...

OPTIONAL UPGRADE:  
5/8-in Maple or gray melamine particleboard and 5/8-in plywood interiors.

## ACCESS DRAWER

Full-extension with solid wood dovetail construction and 75-lb capacity closes effortlessly with soft-close undermount guides and drilled-in bumpers.

...

OPTIONAL UPGRADE:  
Satino Drawer: 75-lb rated, light-gray, epoxy powder-coated, steel sides with full-extension and soft-close.

# FINISH DETAILS

Our rich, long-lasting finishes are a result of hand craftsmanship and innovation. Each step is carefully performed, resulting in a beautiful satin luster. Durability and ease of maintenance are ensured by the final automated applications of our satin or matte finish conversion varnish topcoats.

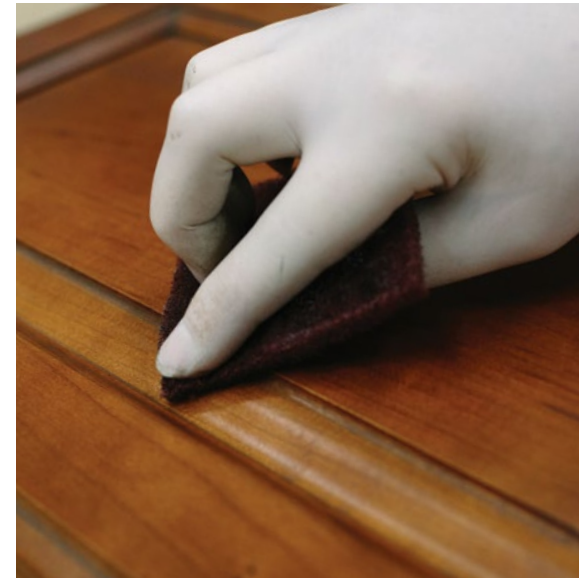

## STAIN

Stains are hand-applied with our multi-step process and protected with multiple coats of clear, eco-sensitive catalyzed conversion varnish top coat with your choice of matte or satin sheen finishes.

## PAINT

Our durable paint finishes are achieved with multiple coats of pigmented color primer and finished with a protective clear coat of our eco-sensitive catalyzed conversion varnish.

## GLAZE

Glazing is a hand-rubbed, contrast color application that creates an old-world look by accentuating open grain and door details on stained and painted woods. Glaze is applied to all exposed components, including the front surface of doors and drawers.

...

Glaze not applied to the back-side of doors & drawers.

# WHAT'S YOUR STYLE?

Bellmont's 1600 Series offers a unique collection of contemporary, transitional and traditional door styles, available in a variety of materials and finish options.

- See your Belmont Cabinet Co. Dealer for details. -

## CONTEMPORARY

The understated elegance of simple shapes and clean lines. Interest comes from the use of color combinations, textures, gloss finishes, and fine wood veneers.

## TRANSITIONAL

A tasteful blend of old and new, combining traditional details and finishes with the simplicity of contemporary lines and textures.

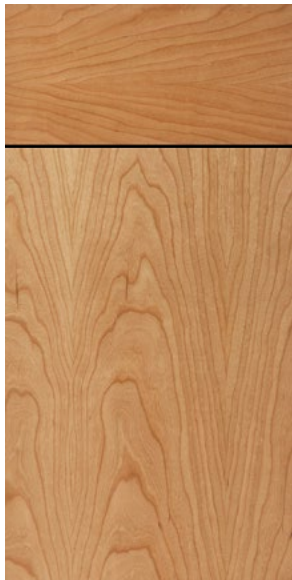

## TRADITIONAL

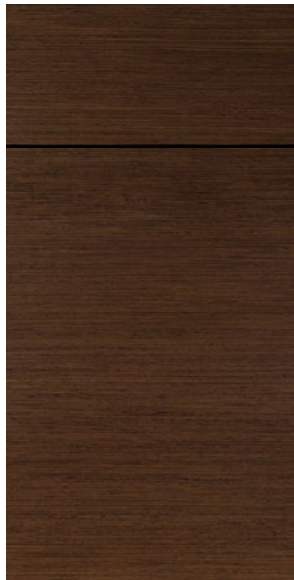

Time-honored and long established. Bring traditional design into the 21st century with classic styling, refined detailing, and elegant stained woods or paint finishes.

# CHERRY

Common in fine furniture, Cherry is an eastern grown hardwood that exhibits a smooth, tight grain and mild color variations from pale yellows to deep reddish-browns. Fine pin holes, pitch pockets, grain variation, and darkening with age all occur naturally, adding to the beauty of Cherry.

## RIFT WHITE OAK

An American-grown hardwood, White Oak is light to medium-brown in color. Boards are cut perpendicular to the growth ring, creating a unique, straight grain pattern with light-colored flecks. The fresh, contemporary appearance is ideal for modern or classic door styles.

### STAIN COLORS

\*\*Available October 2018

# MAPLE

Admired for its consistency, Maple's dense, smooth grain patterns and uniform coloring allow it to take lighter stain colors well. The occasional dark mineral streak and mild color variations add to Maple's character.

# TEXTURED LAMINATE (TSS)

Designed to replicate real organic colors and patterns. TSS is a thermally structured surface bonded to a substrate with heat and pressure using a textured steel plate. The result is a durable tactile surface with greater color uniformity and ease of maintenance compared to natural hardwood.

**ALBERO COLLECTION** - Patterns and textures inspired by nature.

## TEXTURED LAMINATE (TSS)

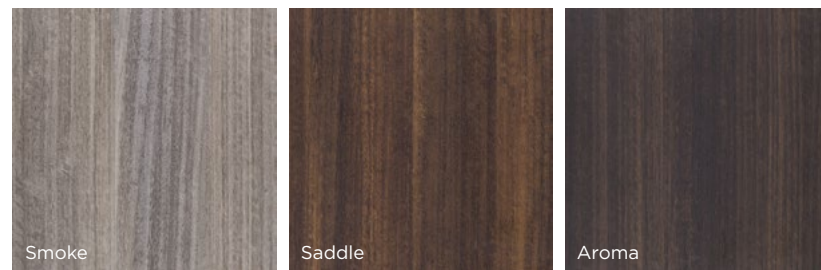

Designed to replicate real organic colors and patterns. TSS is a thermally structured surface bonded to a substrate with heat and pressure using a textured steel plate. The result is a durable tactile surface with greater color uniformity and ease of maintenance compared to natural hardwood.

**SYNCHRO COLLECTION** - The synchronized grain & texture emulate the natural characteristics of wood.

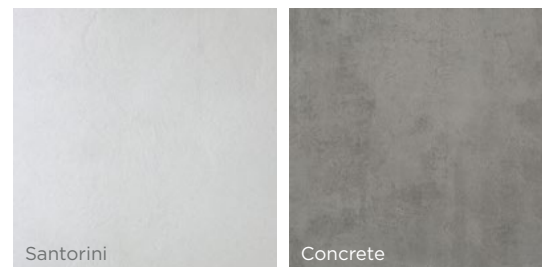

Door Styles: Terra, Firma, Penta & Nova  
(Some exclusions apply.)

**SALINA COLLECTION** - Designed to replicate Sapele's beautiful ribbon wood grain pattern.

Door Styles: Terra & Firma

**ARES COLLECTION** - Inspired by industrial architecture and reflects the simplicity & depth of a concrete wall.

Door Styles: Firma

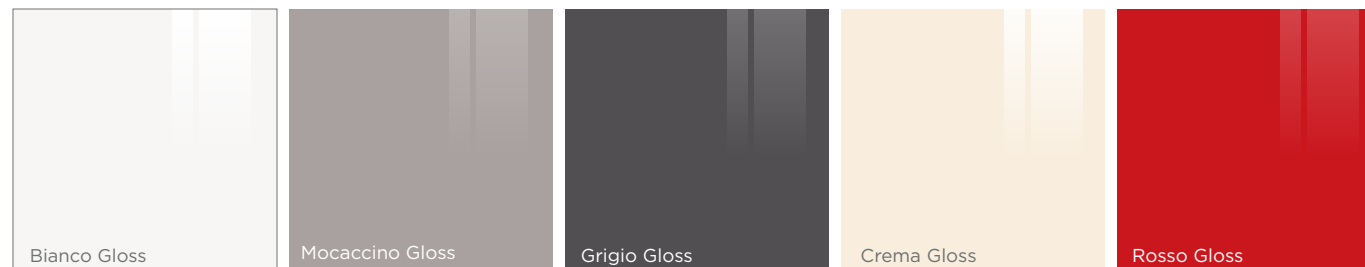

## HIGH-GLOSS & SUPER-MATTE LAMINATE

Our High-Gloss and Super-Matte product is a lightweight, durable, chemical resistant, UV-light stable plastic. The surface is treated with a transparent coating cured under special temperature and UV-light processes to further enhance its durability.

### SOLIDO COLLECTION (HIGH-GLOSS)

Door Style: Porta

### SOLIDO COLLECTION (SUPER-MATTE)

Door Style: Porta

## FUSED EDGE BANDING

High-Gloss & Super-Matte finishes receive the latest in color-matched edge banding technology, thermally bonding the material permanently to the door's edges, resulting in a seamless no-glue-line appearance and exceptional performance.

# SOFT TOUCH LAMINATE

Soft and silky to the touch, with scratch and fingerprint-resistant properties. These matte laminates are manufactured using a sophisticated coating process, making them a perfect low-maintenance alternative to real Oak or Walnut veneers.

## VELLUTO COLLECTION

*\*Available October 2018*

Door Styles: Modena & Verona

# THERMOFOIL

Thermofoil is a smooth PVC membrane adhered to an MDF door core with heat and pressure. The result is a paint finish appearance that is durable and easy-to-maintain.

## THERMOFOIL COLLECTION

Door Styles: Abode, Classic & Euro
