VERSE 1
Even from your mother's womb
I knew you
Says a Father
Who calls you by your name
There in sacred space
Not hidden from My face
I knitted you together
In that secret place

VERSE 2
My eyes were seeing each and every part of you
And your story that was waiting to be read
Your every day was planned
And numbered by My hand
Like the stars up in the heavens
Or the hairs upon your head

CHORUS
PreBorn, you were known and you were wanted
Before the foundation of the earth
Free born, from the Jerusalem above
You were loved and longed for
Long before your birth
You're loved and longed for
Long before your birth

VERSE 3
And no one's ever lived
Who bears your image
Though you're on the earth
You're heaven's dream come true
Like a print upon a finger
Or a snowflake in the air
There never was nor will be
Another just like you

CHORUS
PreBorn you were known and you were wanted
Before the foundation of the earth
Free born, from the Jerusalem above

You were loved and longed for
Long before your birth
You've been loved and longed for
Long before your birth

BRIDGE
And before you draw one breath
You are a precious work of art
Protected and made safe
The moment you give me your heart

CHORUS
Then reborn, you will be a new creation
PreBorn, that's the hope I've placed in you
Free born, through the Spirit breathed upon you
By the One who died to show you what you're worth
To your Father who has given you new birth
For you're loved from the foundation of the earth
You're known and loved from the foundation of the earth
