Reading

Reading at home and making it part of your daily routine will help make your child successful at school.

Things to do while Reading:

1. Before reading ask questions and make predictions.
2. While reading talk about new vocabulary and their meaning.
3. Make connections to past books or life situations.
4. Discuss the characters and settings while you read.
5. Discuss why things are happening, how do the characters feel etc...
6. Have your child "read" the book. They might make up words while using the pictures as cues.
7. Have your child turn the pages while reading, fill in the rhymes as you read, notice patterns in the text and illustrations, and notice and talk about letters and the sounds they make.

Place: Make sure you have a cozy place for your child to read. Add cushions, beanbags, fluffy blankets, and stuffed toys.

If you are able to leave the house, encourage reading outdoors, in the car, etc...

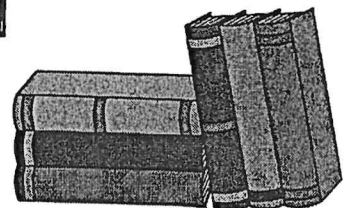

How: When reading a book, make it fun by using props, puppets, flashlight, changing your voice, act it out, etc...

What: make sure you have a bunch of different types of books available. Try reading on a device or computer. Listen to the book online. Make sure you have books of different genres, and authors.

Things to read: reading doesn't mean only books. You can also include, magazines, menus, newspapers, lists, comics, etc...

Keep in mind: Encourage your child to re-read books. Children notice new things after reading the same books over and over. They also build fluency and knowledge.

Help your child LOVE books!
