## ENGINEERING LTD

# WE ARE HIRING

## Manual & CNC Cylindrical Grinder

**Location – Bideford, Devon  
Including Relocation Support**

**Salary – £39,520 – £54,080 per  
year (Depending on Experience)**

### ABOUT THE ROLE

We are seeking an experienced Manual & CNC Cylindrical Grinder to join our skilled machining and toolroom team in Bideford. You will be responsible for producing high precision compounds using both manual and CNC grinding equipment, with a strong emphasis on accuracy, craftsmanship and attention to detail. Experience with Jones and Shipman grinders preferred. Previous toolroom experience will be a strong advantage.

### IDEAL CANDIDATE PROFILE

- Proven experience in Manual and CNC Cylindrical grinding
- Working knowledge of Jones and Shipman machines (Preferred)
- Toolroom background or experience (Advantageous)
- Excellent attention to detail and ability to work within tight tolerances
- Confident interpreting technical drawings
- Reliable, self motivated and able to work well within a close-knit team

### WHAT WE OFFER

- Annual salary of £39,520 – £54,080 (depending on experience)
- Overtime opportunities
- A genuinely supportive, family-run working environment
- Long-term career development and training
- Relocation support – Accommodation assistance for the first 6 months

### ABOUT THE COMPANY

We are a family-run engineering company with a long-standing reputation for quality, reliability and looking after our people. Creating a supportive, friendly and stable workplace is at the heart of what we do. We believe that when staff feel valued and respected, great work follows. We are proud to maintain a team culture built on trust, collaboration, and genuine care.

### KEY RESPONSIBILITIES

- Operate manual and CNC Cylindrical grinding machines
- Set and run Jones and Shipman grinders to tight tolerances
- Produce precision components for a variety of applications
- Interpret engineering drawings and specifications
- Carry out in-process inspection and quality checks
- maintain tooling, equipment, and a clean working environment
- Support continuous improvement and problem solving activities
