colour theory

complementary colours

how a piece of art looks: style is often divided into the style of a period of time in history, a country, a group of artists, art which is about a particular idea or how an artist creates a work of art

a way of doing something, like painting a picture

the mark made by a paintbrush

a light-hearted and pretty style of art and design from the 1700s which uses elaborate decoration, curvy lines and light colours

not symmetrical: different on one side of the design to the other

a style of art and design starting in the 1850s that rejected previous artistic styles, was often abstract, experimental and focussed on materials

art that doesn't try to look like something, but uses shapes, colours, lines and form to achieve an effect

information about how to **create different colours by mixing** (e.g. how to mix primary colours to make secondary colours) and the **effect of different colour combinations** (e.g. what happens when you put two complementary colours next to each other)

any two colours which are opposite each other on the colour wheel, e.g. yellow and purple are complementary to each other

modernist style

Marcel Breuer

Wassily Chair (1925-1926)

The Pilgrimage to the Isle of Cythera (1717)

Antoine Watteau

Contra-Composition of Dissonances XVI (1925)

Theo van Doesburg

Key Learning

- To explore different types of quizzes and identify their features, strengths, and weaknesses.
- To explore the features of 2Quiz and experiment with creating quiz questions.
- To explore additional features of quizzes, such as feedback, title screens, and content pages.
- To apply knowledge of 2Quiz to design an educational quiz based on a chosen topic.
- To be able to refine, test and share completed quizzes.

Key Resources

Key Vocabulary

Quiz

A set of questions designed to test knowledge or understanding.

Interactive

Allowing active participation or engagement.

Features

A feature of something is an interesting or important part or characteristic of it.

Simple

Something that tends to be easily understood or done.

Advanced

A level that is beyond the basic, requiring a higher level of skill, knowledge, or understanding.

Debug

To identify and fix errors in a program or application.

Key Questions

What are the key features that make a quiz engaging and effective?

A quiz is engaging and effective when it includes clear and varied question types, a logical layout, appropriate feedback for answers, and additional features like a title screen and content pages. These features ensure a quiz is fun, informative, and easy to follow.

Why is debugging important when creating a quiz?

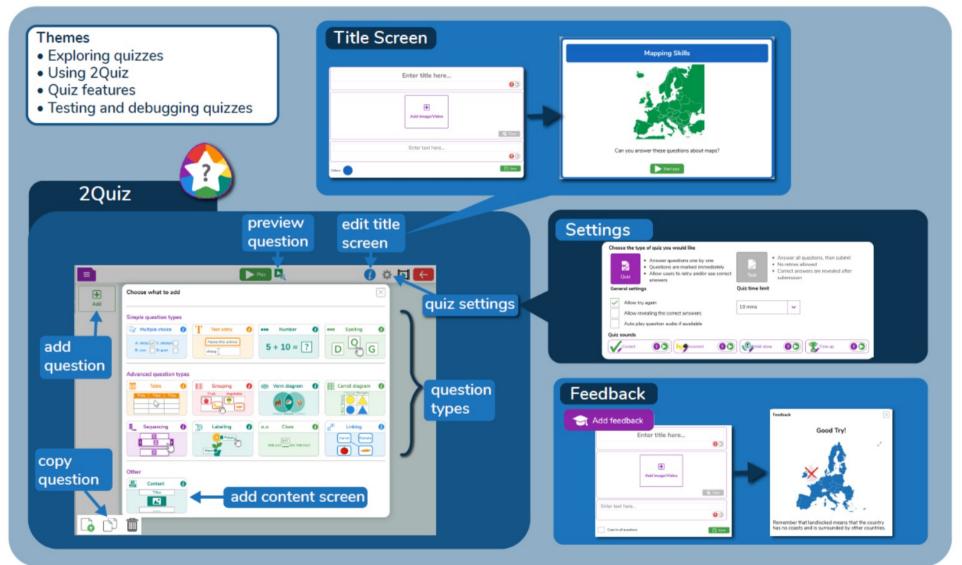

Debugging is essential to identify and fix errors in a quiz, ensuring it works as intended. It helps improve the quality of the quiz by making it functional, user-friendly, and free of mistakes that could confuse or even frustrate users.

How does adding feedback improve a guiz for users?

Feedback helps users understand what they got right or wrong and it helps them to learn from their mistakes. It makes a quiz more interactive and engaging, providing a more meaningful experience by giving explanations or additional information related to the answers.

prime meridian line

lines of longitude

lines of latitude

co-ordinates

Eastern Hemisphere

Western Hemisphere

relief maps

an imaginary line that **divides the earth into two sections** to show the eastern and western hemispheres (it also used as the basis forworld time zones)

imaginary lines that **run from north to south around the globe**: lines of longitude can be used to identify the location of a place as expressed in degrees east or west from the prime meridian line (longitude lines are not parallel to each other)

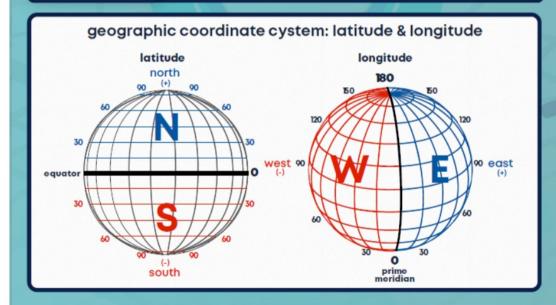

imaginary lines that **run parallel to the equator**. like lines of longitude, they can be used to identify the location of a place

numbers that represent a location on a map

a term used to describe places that are east of the meridian line

a term used to describe places that are west of the meridian line

a map that uses shading and colours to indicate the height of the land

map scale

- a) (1 centimeter represents 250 meters)
- b) 1:25 000

John Cabot

an Italian explorer. funded by England, who 'discovered' lands in North America

1600

John Cabot went to North America

1497

Empire is established in India 1526

in North America 1585

Sir Walter Raleigh sets up the first

British settlement

Elisabeth I grants Company

the Seven royal approval to the East India Years War begins

1756

Battle of Plassey

1757

the Seven Years War ends and Britain takes land from France

1763

Sir Walter Raleigh

founded a colony in Virginia

empire

an empire is a group of countries ruled over by a single monarch orruler

buying, selling or exchanging goods between people, companies

a country or area controlled by another country that is often far

imperial

trade

colony

slave

merchant

a person who is considered to be owned by another person and has to obey them

belonging or relating to an empire

a person involved in trading goods

or countries

away

Elisabeth I

Queen of England 1508-1603: she gave royal approval to the East India Company

General Wolfe

he led Britain to victory at the **Battle of Quebec**

Emperor Jahangir

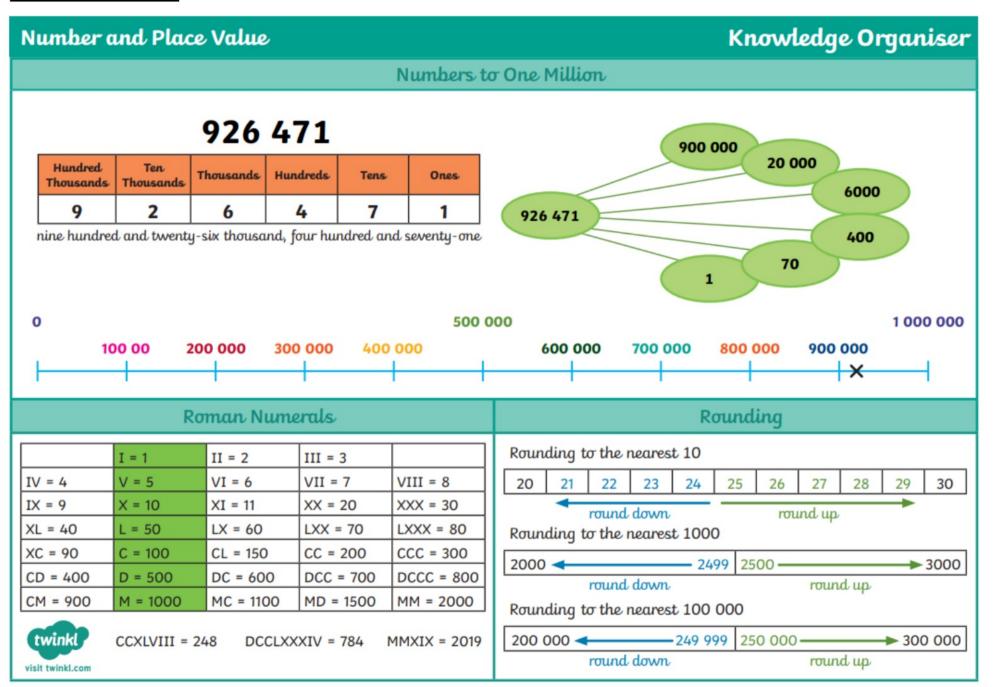

Mughal Emperor who allowed the **East India Company** to trade in India

Major-General Robert Clive

a military commander who helped secure an Indian empire for Britain

gestation period

adolescence

puberty

hormone

growth stage

the **time in which a foetus develops**, beginning with fertilization and ending at birth (it lasts nine months in humans)

the **period** following the onset of puberty during which **a** young person develops from a child into an adult

the period during which adolescents reach sexual maturity and become capable of reproduction

a chemical released in a gland that travels to other parts of the body where it helps control how cells and organs do their work

infancy, childhood, adolescence, and adulthood are human arowth stages before old age

changes in puberty

- · muscles and bones grow larger
- · females develop breasts and their hips widen
- · males shoulders widen and their voice deepens
- both females and males grow hair under their arms and around their genitals
- · females start menstruating (periods begin)
- · males produce sperm in testes
- · hormonal changes produce mood swings
