

# FASTENER PRO PNEUMATIC CHANNEL LETTERS STAPLER

## The Ascent stapler

Connects the side return to the back of the channel letter with galvanized or stainless-steel crown staples for notching and flanging type letters.

The machines are designed to work with side return 0.040" up to 0.063" aluminum and back from ACM (Composite Aluminum Material) or aluminum or polycarbonate. Crown Staples: 16 Gauge 7/16" Medium (usually 1/2" long) galvanized or stainless steel. The tabletop of the machine can be adjustable according to the depth of the channel letter to accommodate any depth of the letter.

## PERFORMANCE

- There is no limitation on the size of the letter
- Fast and easy to operate
- Using standard industrial crown staples (less than \$40/5000)  
Can be purchased from any industrial supplier
- The machines operate on compressed air with a foot paddle
- Many added safety features, such as:
  - The stapler will not fire until it is close to the letter
  - Laser pointer to ensure the operator will not put the finger where the staples are supposed to go through
- Extremely easy to operate with the table that can be adjusted to the correct height
