

2025 September LCUC Finances

Little Current United Church Pastoral Charge brought in \$11,198.01 in September 2025

Of this, \$9,837.19, or 88%, were used for expenses.

Of the expenses, \$2,034.87, or 18% of income, were used for operating costs such as heat, water, and insurance. And \$7,802.32, or 70% of income, were used for wages including salary, insurance, and taxes.

We have \$1380.62 of unused funds carried into October. This is a good thing as soon we'll have higher prices for heat, and need to hire people for snow removal.

Regular support of our church by our members helps us plan and make a difference in the world. For more information on PAR, our church's Pre-Authorized Remittance plan, please reach out to Betty Edwards
