

ULTRA-FRESH

— ANTIMICROBIAL TREATED WINDOW BLINDS —

■■■■ LOUVOLITE

PROVEN PROTECTION

FABRICS WITH ULTRA-FRESH*

Keeping window blinds fresh and clean is a necessity in commercial sectors, especially healthcare institutions, and the home.

Louvolute offer fabrics that prevent unwanted microbial growth with the addition of Ultra-Fresh.

When treated with Ultra-Fresh the fabric provides proven protection against the growth of odour causing bacteria, fungi, mildew and moulds. It also prevents stains that can be caused by bacteria and fungi resulting in fabric that is fresher and cleaner for longer.

With a wide range of light filtering and blackout fabrics available, it makes sense to choose Louvolute window blinds treated with Ultra-fresh where health and well-being is a priority.

*Ultra-fresh is a registered trademark of Thomson Research Associates, Canada.

Carnival Sunset, Cobalt, Amber & Kiwi

Carnival Glacier

Reverie Basalt

Lily Muted Duckegg

Ophelia Breeze

Ultra-Fresh treated window blinds are easy to maintain and will preserve their antimicrobial properties even after washing. Perfect for food preparation and serving areas like kitchens and canteens.

Carnival Blackout China White

Night Safari Gold

Fabrics featuring the Greenshield mark have been tested to confirm no harmful VOCs or hazardous substances will be released to the environment in quantities that are recognised as potentially dangerous to occupants of dwellings or buildings.

UV %: The % of UV light blocked by the fabric.
DIM out: 1: low light filtering, 4: high light filtering, 5: blackout

A fabric treated with Ultra-Fresh* protects against the growth of odour causing bacteria and fungi, preserving fabric freshness.
*Ultra-fresh is a registered trademark of Thomson Research Associates Inc.

SPC® is a solar protective coating applied to the reverse of the fabric that reflects and filters light more effectively than conventional fabrics. Especially useful for reducing glare.

FR: Flame Retardant
BO: Blockout Fabric - Blockout fabric does not create a fully blackout blind, there will be lightstrike at the edge of the blind.
MR - Moisture Resistant: Suitable for high moisture environments.

Fabrics treated with Louvolite Coronasafe™ help protect against coronavirus. On contact, Coronasafe eliminates 99% of coronavirus from the fabric's surface within an hour.
