# ABOUT LEASE PURCHASE PLANS

**Heartland Capital Investments** partners with manufacturers and dealers nationwide to provide affordable Lease Purchase programs for their customers. A Lease Purchase agreement provides customers the opportunity to pay for larger purchases, such as home generators, in monthly payments. We offer low payment plans with easy payment options. Customers can pay online 24/7, by phone with a live Customer Service Representative, by mail, or directly from their Bank or Credit Union. At the end of the lease term, the customer is the full owner!
