

Weekly Highlights

Impetigo - it appears that impetigo is making rounds at schools in our area, so we'd like to send a PSA on what to keep an eye out for. Per the CDC, impetigo is a skin infection that starts as a red, itchy sore. Symptoms include red, itchy sores that break open and leak a clear fluid or pus for a few days. The sores can occur anywhere on the body but most often affect exposed skin. Sores are commonly found on the following areas: arms, legs, mouth, and nose. Next, a crusty yellow or "honey-colored" scab forms over the sore, which then heals without leaving a scar.. Healthcare providers treat impetigo with antibiotics. Please keep an eye out and inform your doctor should your child exhibit symptoms. If diagnosed, please keep your child home until cleared by the doctor.

PE Uniforms - The second quarter is quickly approaching! It will be mandatory for middle school students to change and wear these in class. If a student does not have their uniform, they will not participate and will be unable to receive points for the day. Please make sure your student has a uniform by October 26th! Students may wear any Corpus Christi T-Shirt as well as the gym uniform top. This does NOT include jerseys of the sport they are currently in. Orders usually take up to 2 weeks, so please plan. If there are any issues or concerns with this, please reach out to Mrs. Pluta
