Babylock "Alliance"

Single Needle "tubular" Embroidery Only Machine.

- Low stitch count like new machine!
- Same as Brother PRS100
- 8 x 8 Hoop size
- Free Lessons
- 5 years warranty

Single-Needle, Free-Arm Embroidery

The Alliance is built to embroider items and three-dimensional spaces that are difficult for typical embroidery machines, such as inside pockets, embroiderable stuffed animals, or even shoes.

Needle Beam for Embroidery

The Needle Beam highlights your needle position so you know exactly where your embroidery will start. That means perfect placement every time.

TruView™ Designer

This high-definition TruView LCD color touch screen brings your embroidery designs to life. It displays more than 260,000 colors, providing a bold and vivid image to aid editing and perfecting each design.

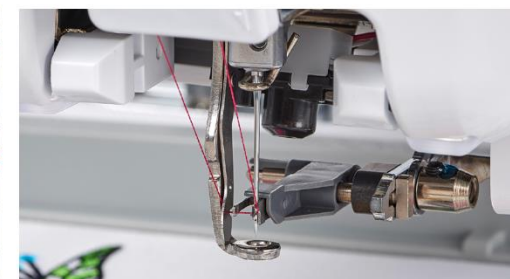

Quick-Set, Built-in Bobbin Winder

The Alliance bobbin system includes an automatic bobbin winder with an independent motor. The winder seat holds the thread in place and stops automatically when the bobbin is full.

Large Embroidery Field

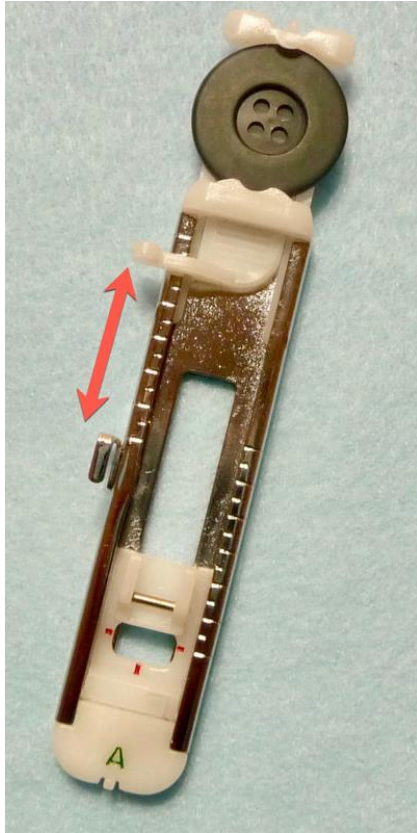

In addition to its ability to negotiate tight spaces, the Alliance can expand its reach to an 8" x 8" hoop, giving the dedicated home embroiderer or business startup room to create.

Automatic Needle Threader

Get the stitching started with worry-free threading. The automatic needle threader puts your thread through the needle so you are ready to begin stitching.

Tips & Tricks for Beautiful Buttonholes!

- Mark a center line and a starting point
- Use good stabilizer
- Most buttonholes stitch from front to back – have bulk away from you
- Make a buttonhole sampler
- Start with a fresh needle
- Most are best sewn “just once”
- Consider using embroidery thread in place of standard sewing thread
- Careful cutting is a must
- Fray Check can be your best friend

[CLICK HERE](#) for more!

Stay: Space between edge and start of buttonhole. Stay usually equals size of button. However, you never go under ½-inch or over 1-inch.

Example:

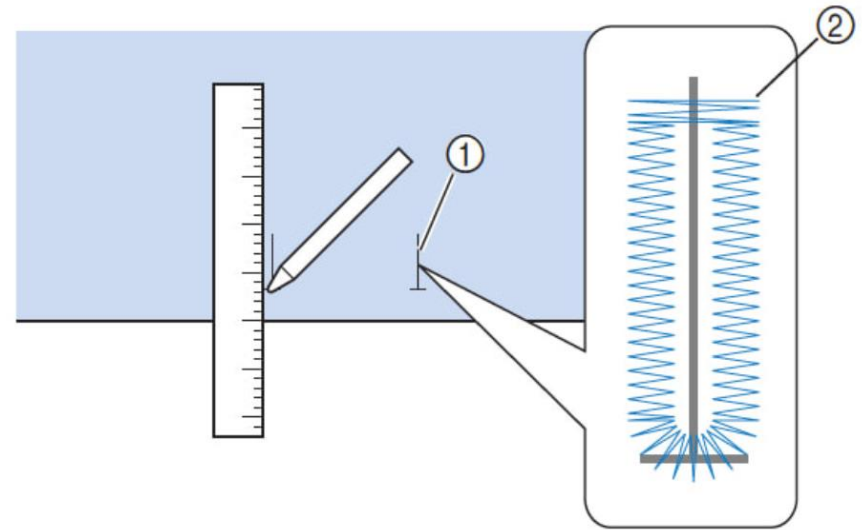

½-inch button equals ½-inch stay

¾-inch button equals ¾-inch stay

1 ¼-inch button equals a ONE inch stay

1 ¾-inch button equals a ONE HALF inch stay

Change button sizes and
alter buttonhole spacing as
desired!

- ① Marks on fabric
- ② Buttonhole sewing

What about embroidered buttonholes???
